Decalcifying your espresso machine regularly is essential to make sure it keeps performing at its best and it provides you with the best coffee taste at any time. This special espresso machine descaler removes scale from your machine.

Sensational coffee quality

- Ensures the coffee temperature is right for enhanced taste
- Maintains the coffee taste over time

Reliable machine protection

- Only use Philips consumables

For a long lasting espresso appliance

- Perfect decalcification for a prolonged machine lifetime
- Philips approved descaling solution
- Protects your system against limescale build-up

PHILIPS

Highlights

Coffee temperature is right

The decalcifier removes limescale residues in the water cycle that would absorb heat from the boiler, therefore lowering your coffee temperature.

Maintain the coffee taste

Regular maintenance ensures the best taste and aroma from your Philips and Saeco espresso machine.

Perfect decalcification

The Philips decalcifier cleans all the water circuits in your espresso machine.

Philips approved descaling

The exclusive formula of the Philips espresso machine decalcifier ensures thorough decalcification without harming the delicate parts inside your appliance.

Protected from limescale

Limescale is a natural part of water used for the machine's operation. This special decalcifier protects your appliance from the build-up of limescale which affects performance and taste. It is highly effective, safe and easy to use.

Philips Original

Only use Philips consumables to make sure your machine runs smoothly for longer. Philips consumables are the only recommended consumables for Philips and Saeco machines.
