Data Sheet FUJITSU Desktop ESPRIMO P557/E85+

Your Flexible and Economic PC

The FUJITSU ESPRIMO P557/E85+ Desktop provides high-quality computing for your daily office tasks. It supports attractive price points and delivers the continuity needed for daily operations. Your valuable business data is protected by the latest TPM controller and the Erasedisk option. To meet your specific hardware needs it can be either individually configured or customized.

High performance and best price/performance ratio

Powerful and cost-effective microtower

■ 7th generation Intel® Core™ processor family

System management

The perfect answer to offload your IT administrators

 DeskView Admin enhances the management of the devices in your IT infrastructure during productive operation – even during remote periods and after hours

Made in Germany

Outstanding quality and stable functions based on German production standards

■ The development, production and functionality tests - all under one roof in Germany

Lifecycle

Hardware continuity for long-lasting project requirements

■ Managed lifecycle of up to 12 months

Meets ENERGY STAR® requirements

Low power consumption and low costs, without any loss in performance

■ 85% energy efficient power supply
