AQUOS
Quattron Pro

THE WORLD'S FIRST

8K RESOLUTION TV

JAPAN TECHNOLOGY

androidtv

*1 First in B to C 4K TVs as of Jan, 2016. *2 As the result of our laboratory testing using a test pattern with 7,680 x 4,320 pixels. The product is not using an 8K LCD Panel. 8K picture (video) from external input cannot be play backed and 8K broadcasting cannot be received.

DETAIL | 8K RESOLUTION

8K Resolution and 8K-Upconverter are embedded. Achieved thru Quattron Technology - World's First 4K 4 Primary colour pixel panel. Never-Seen-Before picture quality is now here for you to experience the best detailed picture with better sense of depths and immersion.

*As a result of our laboratory testing using a test pattern with 7,680 x 4,320 pixels. The product is not using an 8K LCD panel. 8K picture (video) from external input cannot be played back and 8K broadcasting cannot be received.

COLOUR | RICH COLOUR PRO

The New LED backlight device & 4 Primary Colour Panel Technology expand 40% wider than conventional TV by making Green, Red and Yellow colour reproduction to be richer.

CONTRAST | ULTRA DYNAMIC RANGE PRO (UDR)

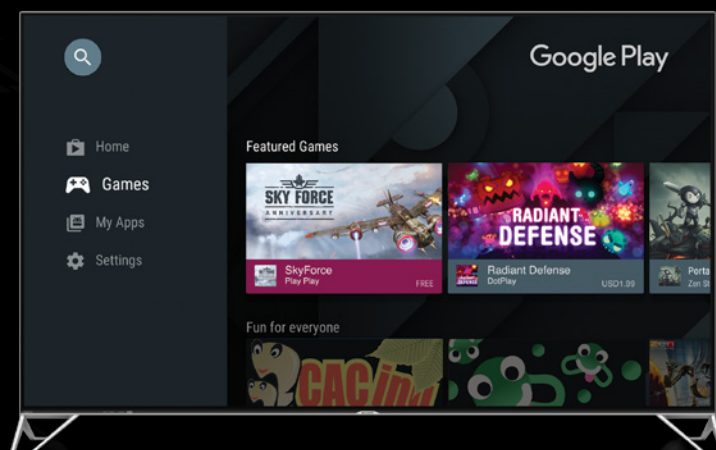

Great image requires ultra-realistic contrast. Ultra Dynamic Range Pro employs the use of direct backlight system and control area dimming technology to broaden the contrast.

POWERED BY ANDROID TV™ - ENTERTAINMENT TAILORED FOR YOU

YOUR FAVORITE CONTENT & APP

Android TV brings great content to you, so you can spend less time browsing and more time watching. Just pick the personalized recommendation, it will appear automatically in your home screen.
