FX-890IIN

Fast nine-pin dot matrix printer offering outstanding reliability and extremely low TCO, as well as network capability.

The FX-890II is a high-volume, low TCO 80-column dot matrix printer designed for fast, reliable network printing. A contemporary new design and small footprint make upgrading easy and add a range of new features for unprecedented flexibility.

Market-leading print speeds1

The FX-890IIN offers an improved USD (ultra speed draft) speed of 735 characters per second at 12 characters per inch, making a real difference to high-volume print runs such as stock reports and large batches of invoices or freight documents.

Outstanding reliability

Epson's dot matrix technology is already mature and very reliable, and these new printers improve the mean time between failure by 25% to 25,000 poweron hours, ideal for challenging conditions or where regular maintenance is not practical.

Modern design

Epson's new range of dot matrix printers have a refreshingly modern design to fit in with your working environment.

Network capability

This is a network model which supports both serial and Ethernet connections for enhanced connectivity.
