| EAN code | 8717371440633 |

The SVPS23N1-10 is a 3 meter KVM switch cable.

This NewStar universal 3-in-1 KVM switch cable is designed to be the highest quality tangle-free KVM switch cable available. This cable is compatible for the NewStar KVM switch. Keyboard connection M/M, mouse M/M, monitor M/F.

This cable combines separate keyboard, monitor, and mouse into one cable split at each end. This design makes it inherently tangle-free and easier to manage since the total cable count is reduced to 1/3.

The VGA Video section of the cable is coaxial eliminating picture "ghosting" and fuzzy images, and using ferrite cores near the connector ends provides superior EMI interference protection.
