# Highlights

## Incandescent-like warm white

This bulb has a color temperature of 2700K, providing you with a warm, tranquil atmosphere, perfect for relaxing. Ideal for home lighting design

## WarmGlow dimming

With this dimmable bulb, you can dim from a 2200k warm light to a 2700K light. The more you dim, the warmer the light.

## Replaces standard incandescent

With its beautiful design and familiar shape, this energy-saving LED bulb is the perfect sustainable replacement for traditional incandescent bulbs.

## Instant On

No need to wait: Philips LED light bulbs provide their full level of brightness immediately when they are switched on. Just by flipping the switch, your room is at full brightness. There is no slow starting or waiting.

## Saves up to 80% energy

LED technology saves up to 80% energy compared to your standard bulb. It therefore pays for itself and saves you money year after year. It also helps protect the environment.
