5 coffee varieties from fresh beans made easy

Silky cappuccino thanks to milk carafe frother

Enjoy creamy drinks such as Cappuccino and Latte Macchiato at the touch of a button, from fresh milk and coffee beans. All drinks, including Espresso, Coffee and Americano, are customizable in strength, temperature and volume.

High quality coffee from fresh beans

- Guaranteed consistent performance for 20,000 cups
- Hot coffee from the first cup with the quick heat boiler
- Aroma seal keeps your beans fresh for longer

A variety of coffees customized to your taste

- Enjoy 5 beverages at your fingertips, including cappuccino
- Smooth milk foam from the carafe frother
- Adjust the length, 5 aroma strength and 5 grinder settings
- Adjust and store your personal user profile

Effortless use and cleaning for everyday enjoyment

- Visible hygiene thanks to fully removable brewing group
- Up to 5000 cups* without descaling thanks to AquaClean
- Clean milk residues after every use with milk clean function

PHILIPS

Highlights

100% ceramic grinders

Ceramic material ensures long-lasting performance and silent operation while not deteriorating. This means your coffee will be always ground like the first time, delivering the best of your beans for more than 20.000 cups.

Quick Heat Boiler

Say goodbye to lukewarm coffee. The Quick heat boiler ensures a hot coffee and cappuccino for you family from the first cup, in no time. The secret is in its light aluminum and stainless steel body, which can reach hot temperatures, fast.

Preserve beans' aroma

The new Aroma seals will protect your favorite coffee beans and make sure they

maintain their original aroma over time, while reducing the grinder noise.

Customize your coffees

This Super-Automatic machine offers an abundance of indulgent options to customize your beverage to your taste. You can easily personalize and memorize length, strength and temperature for each drink. Feel free to explore, experiment and dream up any drink!

MEMO function

You will always get a coffee brewed to your personal preference thanks to our memo function, which allows you to adjust and save the coffee and cappuccino length in your cup. With this function, your machine will know

exactly how you prefer your coffee and cappuccino.

Removable brew group

The brewing group is the heart of every super-automatic coffee machine, and should be cleaned regularly. The fully removable brewing group allows you to clean it thoroughly just by rinsing it under the tap

AquaClean filter

AquaClean

Our new and patented innovation, AquaClean water filter, ensures you make the most out of your full automatic coffee machine. By changing the filter at machine request, you will not need to descale your machine for up to 5000 cups, while getting the benefit of clear and purified water. As an added benefit, the descaling notification alarm is automatically deactivated once AquaClean is installed in your coffee machine

Specifications

Country of origin

- Made in: Romania
