PHILIPS

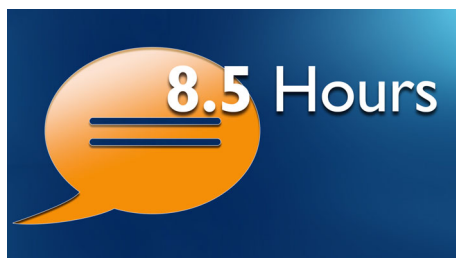

Highlights

Up to 1 month standby time

The phone can be on and in standby mode continuously for up to 1 month on a single charge.

Up to 8.5 hours talk time

The phone can support up to 8.5 hours talk time on a single charge.

Trendy back cover design

Your Philips mobile phone sports a trendy yet qualitative back cover design that expresses your individual style through refined textures. The design not only enables the phone to fit comfortably in your hand but also sets you apart from the crowd.

Fast, intuitive touch screen

Easy-to-use touch screen interface truly simplifies your mobile phone experience. Navigate swiftly through menus with a stylus or simply touch and flip through folders. Calling, sending SMS or just organizing your life is a breeze with your mobile.

Top quality movie experience

Take quality movies and pictures on the road and enjoy quality viewing like never before on your Philips mobile phone. Equipped with D1 resolution, your phone has all the required hardware to accept high quality multimedia input.

Plays web movies directly

No need to worry about video playback compatibility with your Philips mobile phone. Enjoy web movie clips downloaded in formats

like RMVB, FLV and AVI and play them directly on your mobile phone.

Listen to CD-quality music

Your Philips mobile supports lossless audio compression formats like FLAC and APE standards, so you can experience CD-quality music with no distortion. Rediscover your compressed MP3 music in true-to-life sound even when you're on the go.

3.2 Megapixel autofocus camera

Capturing memorable moments clearly is as simple as point and shoot. The autofocus works automatically when you press the camera button halfway. Simply press the button all the way in order to capture a clear, sharp image.
