

HP SmartTracker software

Gain broad control over your printing costs and turn them to your advantage

CONTROL

Powerful data tracking and reporting

- Keep track and compare both print costs and reimbursement fees, at the same time
- Generate/schedule¹ easy-to-read reports—use the default templates or customize them to your preferences
- Consolidate tracking and reporting across multiple HP PageWide XL printers²
- Get the complete detail—you can access the source data on a per-page basis

CONSISTENCY

All your jobs are assigned correctly

- Avoid manual data entry and easily merge data from HP SmartStream/HP Click/driver/front panel/MFP²
- Assign jobs by print user, project, and department, or edit the categories to fit your workflow
- Get secure print job assignment, with optional password-protected categories that help prevent errors
- Enable correct print job allocation—submit jobs as billable/not billable, and add comments with more info

EFFICIENCY

Easy to use, easy to integrate

- Save time—create invoice-format reports including your company logo¹
- Avoid manual error—users, projects updated with active directory integration and central projects database¹
- Free up time—integrate with your current accounting software by easily importing or exporting .csv files
- Make better use of the team's time—automatic fill-in with the last credentials used helps simplify printing

HP SmartTracker software is only compatible with Original HP ink supplies.

¹ Invoice-format reports, scheduled report generation, active directory integration, and centralized projects database functionality available second half 2017.

² Data is consolidated across all your HP PageWide XL printers and multifunction printers, with the exception of HP PageWide XL blueprinters, as of March, 2017.

Convert your printing costs into your advantage

Take your business to the next level with HP SmartTracker. Track printing data across multiple HP PageWide XL printers² and easily create consolidated reports to analyze your printing costs, or enable reimbursement.

Data tracking and reporting integrated into your workflow
