Hassle-free business printing

Packed with performance and functionality, yet still small and quiet enough to fit into any workgroup, the Samsung ML-4510/5010/5015 series has been designed to ensure that your valuable time isn't wasted dealing with 'printer issues'.

Reliable Paper Handling

The high monthly duty cycle of up to 200,000 sheets ensures that the Samsung ML-4510/5010/5015 series copes easily with the pressures of a busy workgroup or office. While the unique Anti-Jam Technology, which by using a new friction roller system, significantly reduces the occurrence of multiple sheet pick-ups, misfeeds and paper jams – keeping your workgroups work-

Ease of Use

Designed with all types of users in mind, the Samsung ML-4510/5010/5015 series delivers user-friendly functionality that enhances productivity and maximises value. The simple to use 4.3" touch screen¹ or 4-line LCD control panel and numeric keypad² offer access to a wide array of features and settings, regardless of technical ability, and one touch of the ECO Print Button saves paper and reduces toner consumption by up to 30%.

For busy workgroups, low noise levels keep the distraction to a minimum, while a USB port on the front panel³ of the printer enables users to quickly print compatible files⁴ directly from a USB memory device – without the need to connect to a PC.

Economy as standard

Designed with economic printing in mind, the Samsung ML-4510/5010/5015 series delivers the savings your budget needs with a range of innovative features and consumables.

Planet-friendly Printing

With just one touch of the convenient one-touch ECO setting, users can select options such as automatic duplex or 2-up printing, where two pages are printed per sheet of paper. Enabling them to save paper and reduce their toner consumption by up to 30%.

The unique Samsung Result Simulator expands this further by providing a graphic representation of how much you can save on your CO2 emissions, power consumption and paper usage, depending on the options you select.

Pocket-friendly Technology

Samsung's Polymerized Toner produces sharper images and lines, thanks to smaller, more uniform toner particles compared to traditional toner. The improved print resolution and glossier finish enables you to easily produce professional looking documents. The unique format of the toner enables the printer to transfer the print onto the paper in a thinner, more uniform layer. This reduces waste and requires a lower fusing temperature than standard, reducing the cost per page and overall power consumption.

By separating the toner and drum cartridge, Samsung has enabled users to reduce TCO even further by replacing the drum unit only when required, rather than with every new toner cartridge. Add to this the extra-high capacity toner cartridge, and you have a truly economical office printing solution.

Performance at its best

Utilising the latest technology, the Samsung ML-4510/5010/5015 series delivers the high-quality, productivity boosting print performance your workgroups demand.

Powerful Performance

A 600 MHz dual-core processor with Samsung's state-of-the-art System-On-Chip Technology delivers powerful performance levels, while 1 Gbit LAN support and memory expandable up to 768 MB⁵ enables large documents to be received and processed quickly from multiple users. This, alongside fast print speeds of up to 48 ppm⁶ (A4) and a First Print Out Time of less than 7 seconds means that, no

Impressive Capabilities

The Samsung ML-4510/5010/5015 series offers a wide range of paper handling capabilities, including duplex as standard, higher than average paper capacity (up to 2,700 sheets at 80g/m²), heavier media compatibility and full range of finishing options. Both the main tray and multi-purpose tray can manage envelopes, card stock and other special media, so users can achieve the high quality documents they need, regardless of the type of media they use. For users with more specialised needs there is a full range of paper handling options available including additional paper cassette feeders, stapler finisher, and mailbox.

Effective Solutions

Managing an effective print environment requires much more than high-quality network print devices, today's business demands productive solutions that answer specific needs within their business.

Samsung's extensive range of print and document management solutions do exactly that – combining quick, high quality print with seamless network integration and compliance, all support-

Device Management

- A **Secure Pull-Printing** function is provided at no additional cost. For enabled users, documents are only released for printing when they enter their pin code at the device. This removes the issue of sensitive or confidential information being left on the printer.

- Samsung's **Barcode printing** printing solution integrates seamlessly into enterprise applications. Embedded barcode fonts within the device improve the efficiency of automatic data collection processes and lower associated costs.

- Samsung's managed print service **CountThru™** enables you to remotely monitor activity, and calculate and manage the costs of your entire printer fleet

- **Samsung SyncThru™ Web Admin** manages networked, single and multifunction print devices. SyncThru™ Web Admin provides increased efficiency and productivity by allowing IT administrators, support staff and users to manage, monitor and diagnose multiple printing devices remotely via a familiar Web interface.

- **Samsung SyncThru Web Service** uses a familiar web interface to remotely manage your printer devices – enabling you to check status information, customise settings and receive email alerts all from the comfort of your desk.

- **Easy Print Manager** enables you to locate and manage all your Samsung device and print settings from one simple location right down to ordering supplies.

- The Samsung **Universal Print Driver** facilitates quick and easy printer sharing, by enabling you to print to any Samsung device without having to install a driver for every networked printer. You can dynamically search for compatible devices on the network and check their status; enabling users to only use available printers and dramatically reduce calls to the IT helpdesk.

- **Samsung AnyWeb Print** is a handy tool that enables you to collect and only print the information you need from the web – reducing not only waste, but also time and energy too.
