- Big key, voice and fonts for comfortable experience

Simplicity of use

- Audible numbers for error-free dialing and incoming alerts
- Radio music out loud on speakers
- Dual SIM for 2 groups of contacts
- Integrated digital camera

PHILIPS

Highlights

Dual SIM

Organize your life better and keep your contacts separate by using 2 different phone numbers. With Dual SIM, you don't need to carry 2 phones around.

Audible phone numbers

With the audible phone number feature on your Philips mobile phone, you can do away with worries about dialing errors and taking a long time to get all the numbers right for a single call. You can double check the talking numbers as you dial and better yet, the feature

reads the incoming call phone numbers out loud to bring you quick and intuitive audible alerts. Let the talking numbers help your ears and take the strain off your eyes.

Play FM radio out loud

The inbuilt antenna and speaker function on your Philips mobile phone means that you do not always have to plug in your earphones when you want to listen to the radio. Now you can enjoy your favorite radio stations out loud or in your ears, depending on your mood or circumstance.

Big key, voice and font

Your Philips mobile phone features large buttons with big printed fonts for dialing or texting by those with less dexterous fingers. And thanks to its large voice, you can now communicate comfortably and conveniently.

Digital camera

The integrated digital camera with VGA resolution (640x480 pixels) allows you to capture precious moments of your life anywhere, anytime with your phone. Press camera key to take vibrant pictures and use as wallpaper and fotocall, or to send later via MMS.

2.8" TFT display

Put the fun and excitement of colorful graphics and photos right at your fingertips with your phone's 2.8" TFT display.
