- Easy-grip control dial
- Pulse function for smoother blending
- Liquid level marks that are easy to read

### Easy to clean

- Dishwasher-safe parts

### Quality guaranteed

- 2-year worldwide warranty

# PHILIPS

## Highlights

### Effective blending and mixing

We developed our ProBlend6 technology for effective blending and mixing, to ensure that all of the ingredients are finely blended.

### Strong blender motor

With 900W of power, your blender's motor is strong enough to blend your favorite ingredients smoothly and efficiently.

### Choose your blending speed

From gentle blending for soft fruits – to a burst of power for harder fruit and vegetables. It's up to you with our manual speed control.

### Large-capacity glass jar

The large 2-liter jar has a working capacity of 1.5 liters for deliciously blended smoothies to share with the whole family or save for later.

### Easy-grip control dial

Our molded control dial is molded with non-slip grip, so you can easily control the blender speed.

### Pulse for finer blending

Blend your mixes thoroughly smooth by using the handy pulse control – so all the bits and pieces are brought down to the blades for another round of fine blending.

### Liquid levels

We made it easy to see how much liquid is contained in the tumbler and blender jar with clear markings that are easy to read.

### Dishwasher safe, easy to clean

All detachable parts of your Philips blender are dishwasher safe.

### Our promise of quality

You enjoy a 2-year worldwide warranty on our blenders – which is our guarantee of long-lasting quality and operation.
