

Philips GoPure SelectFilter Plus 120 replacement filter for GoPure devices

Fine particles removal

Exhaust gases treatment
Toxic gases elimination
Removes 90% of allergens

GSF120P110X1

Breathe only healthy air in your car

Protects your family from up to 125 pollutants

Philips unique SelectFilter Plus multi-layer filtration technology efficiently removes PM2.5 particles, toxic and exhaust gases to protect your family's health. The Airmid certified purification technology removes 90% of airborne pollens.

Removes PM2.5 fine particles

- Eliminates harmful ultra fine particles $< 0.3\mu\text{m}$

Eliminates toxic gases

- Removes harmful NO₂/SO₂ fumes coming from traffic
- Efficiently removes toxic gases such as exhaust fumes

Removes airborne allergens

- Airmid certified filter removes 90% of airborne allergens

PHILIPS

replacement filter for GoPure devices

Fine particles removal Exhaust gases treatment, Toxic gases elimination, Removes 90% of allergens

Highlights

Fine particles filtration

Philips unique SelectFilter Plus filtration technology, with integrated pre-filter effectively removes particles detected in the car cabin, such as PM2.5. Not only does it remove harmful particles, but also cigarette smoke, dust, airborne allergens, viruses and bacteria.

Toxic gases elimination

Philips unique 3-stage SelectFilter Plus technology includes a HESA layer embedded with selective additives. This decontaminates your car of harmful gaseous chemicals. Through a powerful absorption and oxidation process, it removes harmful gaseous substances. It cleans the air of car exhaust fumes, industrial pollution, chemicals emitted by plastic materials and finishes used in car interiors, other odor emitting substances e.g. volatile organic compounds (VOCs), toluene and formaldehyde.

Removes car exhaust

Who wants their family to breathe exhaust gases from heavy traffic? The car fan creates an air flow from the outside in and blows toxic gases from traffic of cars and lorries into the car cabin. These fumes are then staying trapped inside the car. Children sitting in the backseat of vehicles are likely to be exposed to dangerous levels of air pollution that are much higher inside the car than outside. Philips SelectFilter plus technology treats exhaust gases such as nitrogen dioxide (NO₂) and sulfur dioxide (SO₂), so you and your family can breathe with confidence.

Independently certified filter

Independently tested by the respected biomedical research organization, Airmid Healthgroup, the Philips unique 3-stage SelectFilter Plus technology removes up to 90% of airborne pollen allergens. The Airmid tests prove this filtration is achieved in just one single pass of air through our SelectFilter (known as the single pass efficiency test). With these irritating particles removed, anyone suffering from hay fever can now enjoy clean air.

Specifications

Product description

- Technology: Replacement filter
- Color: Black
- Designation: GSF120P110

Performance

- Filtration bacteria/virus: up to 70%

Replacement

- Fragrance cartridge: -
- GoPure clean air system type: GPC10MXX1, GP710BLKX1
- Filter type: HEPA, HESA

Weight and dimensions

- Box dimensions (LxWxH)(mm): 125 x 123 x 25
- Box weight (incl. product) (g): 103
- Product weight (g): 69
- Product dimensions (LxWxH)(mm): 120x 110x 20

Marketing specifications

- Expected benefits: Healthy air in your car
- Product highlight: SelectFilter Plus

Logistic data

- Quantity in box: 1
- Reference (Order entry): GSF120P110X1
- EAN1 (APR): 8719018010285
- EAN1 (China): 6947939168422
- Ordering code (China) GOC: 16842228
