Highlights

Lasts 22.8 years*

22.8 years means rated average life based on engineering testing and probability analysis where the bulb is used on average 3 hours/day, 7 days a week.

Saving up to 80% [LED lamps]

When you switch to a Philips LED light bulb, you immediately use up to 80% less energy without sacrificing light output and quality.

Instant light when switched on

No need to wait: Philips LED light bulbs provide their full level of brightness immediately upon switching on.

Preferred Application

Philips Energy Saving LED MR16 flood light can be used in recessed cans and track light fixtures. Ideal for use in kitchens, living rooms and dining rooms.

Similar to incandescent

This LED MR16 flood light is ideal for residential use in kitchens, living rooms and dining rooms and for commercial use in restaurants and hospitality applications. This bulb is the perfect replacement for the standard incandescent MR16 bulb.

Reduces energy costs

This bulb saves up to \$114.13 in energy costs over the life of the bulb when you replace a 50 watt incandescent with this 8.5 watt LED light bulb**.

Bright white light

This bulb creates an energizing atmosphere by providing a bright white light (3000 K) that will not fade fabrics or furnishings.***

** **per bulb in lifetime energy costs vs. 50W MR16 @ \$0.11/kWh. Actual savings will vary depending on cost per kWh.
***Light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low value produce a warm, more cozy light, while those with a high Kelvin value, create a cool, more energizing light.
