# Huawei Server Certification Laboratory Visit Guide

[www.huawei.com](http://www.huawei.com)

# 1. Introduction

<b>Name</b>	<b>Huawei Server Laboratory</b>
<b>Location</b>	E1-1-CO1 ,Huawei Base, Shen Zhen, China
<b>Visit Content</b>	1、 Huawei Server Products and Characteristics 2、 Demo of Server management software 3、 Introduction of Server test verification process 4、 Visiting of Server laboratory environment
<b>Opening Date</b>	April, 2011
<b>Visiting hours</b>	1 to 2 hours
<b>responsible for construct</b>	Zhangjinggui 63919
<b>responsible for visiting</b>	Zhangjinggui 63919

## 2. Huawei Server Lab Background

- Huawei Server Laboratory was established in 2006. It now has 25 highly skilled testing professionals who are dedicated in providing customers with stable and reliable application platforms. Since its founding, Huawei Server Laboratory has partnered with and also won mutual certification with many industry-leading hardware and software vendors such as Intel, Samsung, Seagate, Huawei Symantec, EMC, Microsoft, Novell, Redhat, and VMWARE.
- As a member of the Standard Performance Evaluation Corporation (SPEC), Huawei Server Laboratory is able to provide comprehensive evaluation and optimization services regarding the performance and energy-efficiency of a server. Up until now, Huawei has won a competitive advantage in the server field. For example, Huawei's RH2288 V2 Rack server is the world's most energy-efficient server; BH622 V2 Blade Server based Intel®Xeon®E5-2600 Series CPU has the world's most superb performance. Huawei Server has won more than 50 times SPEC world records.
- Another key responsibility of Huawei Server Laboratory is to verify the feasibility of solutions. Over 20 common solutions such as the high availability (HA), virtualization, database application, network load sharing, and high-performance computing have already been verified.

### 3. Content of display

Topic	Content	Duration
Detailed Description of Huawei Server Laboratory	introducing server Laboratory, in particular, high quality of equipment, high reliability and excellent performance	10min
Huawei Server Products and Characteristics	1.RH series Rack Server 2.E Series Blade Server 3.X Series Data Center Server 4.PCIE SSD Card value-add component	20min
Description of a Customer-Interested Product		20min
Q&A		10min

## 4. Attentions

- **commendable Visitor : Technical Consumer and the high-level manager who concern about technology**
- **Camera is Forbidden**

## 5. Application for Visit to Server lab

- **Send E-mail to the contact person with the background and interests of consumer and the guides language**
- **Contact Person : Zhangjinggui 63919**
