

Cerium A4 Coloured Overlays

A4-size transparent overlays, colour matched to the Cerium Coloured Overlays Testing Kit. These overlays are ideal for reading larger texts, sheet music, etc.

Detailed Description

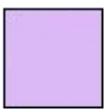

A4-size transparent overlays, colour matched to the Cerium Coloured Overlays Testing Kit. These overlays are ideal for reading larger texts, sheet music, etc.

The overlays have a shiny side and a matt side to provide improved usability over a range of lighting conditions. Reading from the shiny side gives a subjectively crisper appearance to the underlying text, but can reflect overhead lighting. The matt side trades slightly decreased clarity for less reflection.
