

SimplyWorks For iPad

Joystick

The **SimplyWorks Joystick** can be used with any **SimplyWorks receivers** for computer or iPad input, and to control toys and other battery operated appliances.

With an operating range in excess of 10 metres the **SimplyWorks Joystick** is ideally suited for use in team/group sessions, or classroom settings to ensure the participation of all.

The **SimplyWorks Joystick** is specifically designed for cursor movement to respond to the lightest touch (0.5 Newtons), making it one of the only wireless joysticks designed for accurate, cursor navigation and precise targeting of objects on the computer screen, for those with motor skill difficulties.

Part Code: M-NS-JT

Features

- ▶ State of the art radio link with an interference free operating range exceeding 10 metres.
- ▶ Uses 2.4GHz global, licence-free ISM radio band.
- ▶ Works with any SimplyWorks receiver.
- ▶ Light touch joystick movement (0.5 Newtons).
- ▶ Low profile providing a natural hand rest for comfortable operation.
- ▶ Left/Right and Drag Lock buttons.
- ▶ Colour coded buttons mounted sub-flush to prevent accidental activation.
- ▶ Trackball sockets to operate Left/Right click buttons from remote switches.
- ▶ Easy 'plug and play' installation (no additional drivers required).
