Antibacterial Laser Mouse

Prevent Cross Infections

SterileMOUSE-LASER Antibacterial Mouse

Part Number SF08-10

The dangers of cross infection are not only reserved for keyboards? A computer mouse can be used many times by multiple medical staff members throughout the working day.

SterileMOUSE-LASER Antibacterial Mouse is a fully sealed, optical, IP68 compliant product that can be washed or wiped with antibacterial/alcohol based agents or with "Chlor-clean" (often used in hospital environments) thus greatly assisting in reducing/eliminating cross infections in all clinical areas.

SterileMOUSE-LASER Antibacterial Mouse is a comfortable to use and easy to be clean. They can be regularly washed with a recognised antibacterial or alcohol based cleaning agent every day, thus reducing the spread of MRSA,
