Light for your moment

Experience light for your moments and ambiance from warm white to cool daylight with Philips Hue White ambiance Muscari LED ceiling light. Helps you to fall asleep and wake up gently, energize and help you to concentrate, read and relax.

Light for your moments
- Wake up and go to sleep naturally
- Installation free dimming
- Requires a Philips Hue bridge
- Set timers for your convenience
- Control it your way

Highlights

Wake up and go to sleep

Philips Hue will help get you out of bed the way you like it, helping you start your day feeling refreshed. The light brightness increases gradually mimicking the effect of sunrise and helps you wake up naturally, instead of being woken up by the loud sound of an alarm clock. Start your day, the right way. In the evening, the relaxing warm white light helps you to unwind, relax and prepare your body for a good night Fs sleep.
Installation free dimming

Experience guaranteed smooth dimming with Philips Hue. Not too bright. Not too dark. Just right. No need for wires, an electrician or installation

Requires a Philips Hue bridge

Connect your Philips Hue lights with the bridge to control your lights from your smart phone or tablet via the Philips Hue app.

Timers for your convenience

Philips Hue can make it seem like you're home when you're not, using the schedule function in the Philips Hue app. Set the lights to come on at a pre-set time, so the lights are on when you arrive home. You can even set rooms to light up at different times. And of course, you can let the lights turn off gradually in the night, so you never have to worry whether you've left any lights on. Connection with the Philips Hue bridge required for this functionality.

Control it your way

Connect Philips Hue lights with the Philips Hue bridge to enjoy optimal control of lights from your smart devices via the Philips Hue app. Alternatively, add switches to your system to activate your lights. Set timers, notifications, alarms and more for the full Philips Hue experience. Philips Hue works with Amazon Alexa*, Apple HomeKit, Google Home* and DingDong* for a seamless voice control. Turn your lights on and off, change your color ambiances and recall your pre-set scenes conveniently with your voice.

Specifications

Design and finishing
