

NGS GAMING MOUSE PAD GPX-600

MULTI-COLOR ILLUMINATED GAMING MOUSE PAD

Big sized gaming pad (360 x 260 x 5 mm) equipped with LED RGB lights at desing and edges to illuminate your setup.

NGS GPX-600 features durable finish, designed with high quality PVP to guarantee maximum precision and speed for all kinds of action games.

Its spectacular lighting effects, with no additional software required, are adjustable in light intensity and mode (7 single static colors, color cicle and rainbow wave).

The device has two simple buttons, easy to control: on/off power and set up lighting effects switch.

The pad has a low coefficient of friction on the upper surface, optimised for all kinds of sensitivity settings and sensors.

At the same time, the lower part is designed with soft anti-slip rubber base. This will allow, that once the pad is placed onto the playing surface to achieve added stability any kind of unwanted movement will be avoided.

Plug & Play installation, just plug it to the computer through its USB connection and the path is ready for use in an instant.

Finally, GPX-600 is noted for its spectacular exclusive design that reflects the swipe of a creature from another dimension.
