CS-X3-108 Series
Internet Video Recorder

Introduction

EZVIZ products have been designed for your entertainment, communication, security.
X3 is an easy-to-use and cost-effective Internet Video Recorder. It realizes the video recording from the EZVIZ cloud cameras and remote live view via the Internet.
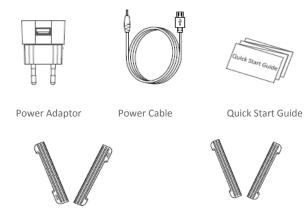

Main Features

- **Mass Storage:** Mass storage HDD is supported. The unique disk pre-allocation technology is able to extend the HDD lifetime, effectively decrease the disk fragments, increase the HDD utilization, and ensure the video security.

- **7*24-Hour Continuous Cycle Recording:** Flexible and configurable recording schedule.

- **EZVIZ Cloud Service:** Remote playback via mobile devices and PC.

- **Auto-Adding EZVIZ Cameras:** Automatically add the EZVIZ cameras which are in the same LAN and linked to the same account.
