## HP SmartStream Submission driver for HP PageWide XL and HP DesignJet printers

The ideal companion for HP SmartStream software to send to print any file format from any application, and to connect enterprise users with Central Reprographic Departments (CRDs).

HP SmartStream Submission driver enables you to send content from any application (i.e., CAD or graphic tools), independently of the file format (DWF, DWG, Microsoft Office files, and more), to be prepared and printed with HP SmartStream software.

In enterprise environments with CRDs, HP SmartStream Submission driver lets enterprise users easily send jobs with instructions and accounting information to the CRD operators so that they can easily print them.

## What are the main benefits:

- Print all file formats (DWF, DWG, Microsoft Office files, and others) from any application
- Easily use HP SmartStream Submission driver to send jobs to be printed with HP SmartStream software, no experience needed
- Forget about applying page settings in HP SmartStream software, they will be automatically applied
- Quickly check the instructions in the job ticket
- Get accurate data for invoicing—identify printouts by Account ID
