HP Printer Trade-In and Save Program (Ends June 30, 2018)

Upgrade to the world's most secure printers¹ and MFPs—now for less.

New HP PageWide Enterprise and LaserJet Enterprise devices with JetIntelligence provide the industry's deepest level of printer security.¹ For a limited time, you can purchase an eligible HP MFP or printer and help reduce your risk of a printer security attack—and get up to hundreds of dollars back with the trade-in of any eligible used printer.²

Act now. Offer valid January 1–June 30, 2018. **Offer valid in the U.S. ONLY.**

It's easier than you think

In just four simple steps, you can earn cash back when you exchange your old eligible printer for a new HP device.

Program overview

The 2018 HP Trade In and Save program offer is only available thru June 30, 2018. Take advantage of these savings on a variety of new HP printers and MFPs—designed for security, productivity, and total cost of ownership.

Recycling with HP

HP will recycle your returned products, minimizing the impact on the environment, through HP-approved recycling facilities. HP ensures that returned products are recycled in an environmentally friendly way, processing them to recover valuable plastics and metals for new products and diverting millions of tons of waste from landfills.⁴

Trade in and Save

For a limited time, when you purchase an eligible HP printer or MFP and return your old ink or laser desktop printer, you can get up to hundreds of dollars back.² Please see hp.com/go/tradeinandsave for a full list of qualified trade-in products. Returning a non-HP product? You may be eligible for an additional rebate based on the product traded-in. Need supplies? Get a rebate when you purchase an Original HP ink or toner cartridge for your new printer, at the time of your printer purchase.² Promotion runs January 1, 2018 thru June 30, 2018 and is valid in the U.S. only (limited availability in Hawaii and Alaska).

For more information, including frequently asked questions and terms and conditions, go to hp.com/go/tradeinandsave.

¹ Most secure printers claim¹ applies to HP Enterprise-class devices introduced beginning in 2015 and is based on HP review of 2016 published embedded security features of competitive in-class printers. Only HP offers a combination of security features for integrity checking down to the BIOS with self-healing capabilities. A FutureSmart service pack update may be required to activate security features. For a list of compatible products, visit: h20195.www2.hp.com/V2/GetDocument.aspx?docname=4AA6-1178ENW. For more information, visit: hp.com/go/printersecurityclaims.

² Offer valid until June 30, 2018, and is only available on select printing and imaging products and varies in amounts and timing. Cash back allowance is in the form of a check. Additional restrictions apply. For qualifying purchase and trade-in products and terms and conditions, including recycling details, visit hp.com/go/tradeinandsave.

1. Comparison based on manufacturers' published specifications of fastest available color mode of all color business printers \$300-\$800 USD and MFPs \$400-\$1,000 USD as of November 2015, excluding other HP PageWide products, and products with 1% or lower market share using market share as reported by IDC as of Q3 2015. HP PageWide speeds based on General Office mode and exclude first page. Learn more at hp.com/go/printerspeeds.
2. Lowest cost per color page claim applies to devices that are not sold under contract. Comparison of HP PageWide A4 Pro and Enterprise class devices with the majority of in-class color ink/laser MFPs (\$400-\$2,999), and color ink/laser single function printers (\$300-\$999) with >1% market share and print speeds >20ppm as of February 2017; market share as reported by IDC as of Q4 2016. Cost per page (CPP) reported by gap intelligence Pricing & Promotions Report January/February 2017. Comparisons for devices/supplies not sold under contract are based on published specifications of the manufacturers' highest-capacity cartridges, inclusive of long life consumables and page yield. Average HP yield based on ISO/IEC 24711 and continuous printing in default mode. Actual yield varies based on content of printed pages and other factors. 1. Mobile device needs to be connected directly to the Wi-Fi Direct® signal of a Wi-Fi Direct-supported AiO or printer prior to printing. Depending on mobile device, an app or driver may also be required. For details, see hp.com/go/mobileprinting.
Wi-Fi Direct® is a registered trademark of Wi-Fi Alliance®.

2. Best-in-class performance claim compares all inkjet color mobile printers as of October 2015 based on market share as reported by Q2 2015 IDC and manufacturer's published specifications.

3. Mobile device needs to support Bluetooth v4.0+ and be enabled. A mobile app such as HP ePrint or HP AiO Remote must be installed and opened for printing. Mobile device must be within 5 feet of the printer. For details, see hp.com/go/bleprinting. Bluetooth is a trademark owned by its proprietor and used by HP under license.

4. Power consumption varies with print job, the use of wireless connectivity and the charging of battery. Values given are nominal.

1. Scan speed measured at 300 dpi (black-and-white, grayscale, and color). Actual processing speeds may vary depending on scan resolution, network conditions, computer performance, and application software.

2. Scanning from a Smartphone or tablet requires the HP ScanJet Wireless Adaptor 100 (L2761A), which must be purchased separately, and the HP JetAdvantage Capture App. Download the app at hp.com/go/documentmanagement. Wireless performance is dependent on physical environment and distance from access point and may be limited during active VPN connections. Wi-Fi Direct® scanning requires the Smartphone or tablet to be connected directly to the Wi-Fi® network of the scanner. Wi-Fi and Wi-Fi Direct are registered trademarks of Wi-Fi Alliance®.

3. Black-and-white scan speed measured at 300 dpi using included HP Smart Document Scan Software. Actual processing speeds may vary depending on scan resolution, network conditions, computer performance, and application software.

- A For Inkjet Printers: Either after first page or first set of ISO test pages. For LaserJet Printers: Measured using ISO/IEC 24734, excludes first set of test documents. Exact speed varies depending on the system configuration, software application, driver, and document complexity.
 - B Maximum dpi that can be scanned is limited by available computer memory, disk space and other systems factors. Scan speeds measured at 200 dpi (black-and-white, color, and grayscale) using A4 sized paper in portrait mode.
 - C Estimated U.S. street price. Actual prices may vary. Contact your authorized HP reseller for the most current pricing information.
 - D Copy speeds may vary depending on the type of document.
 - E HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.
 - F Service levels and response times for Care Pack part of HP Care, may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply.
