

Modernizing Your Workplace with the HP t430 Thin Client Powered by Citrix Workspace

A compact and versatile cloud-first device that is intuitive for IT admins and users

The t430 Solves Challenges That Many Modern Offices Face

Need for quick access to data and applications, need for increased security that support mobile workforce, and get work done in limited office spaces

No cable clutter on shared desks

Single cable USB-C™ for docking display, power as well as data transfer

A sleeker profile and built-in VESA mount

Mount the HP t430 Thin Client on the back of a display or discreetly under a desk

Unprecedented visibility and control for IT admins

Deliver cloud-based applications such as Microsoft Office 365, email, and web browsers through advanced policies to prevent data loss

Secure and instant access to all your apps, files, and desktops

All-in-one interface powered by Citrix Workspace services allows access to all your SaaS & web apps, files, mobile apps, virtual apps and desktops

Protection against malicious attacks

Automatic redirection of selected internet browsing tasks to a cloud-hosted web browser isolates and hence protects the corporate network

Value for Customers

Empower your workforce to be more productive while you control the balance between security and access

Secure access to apps, desktops, files, and data through a single pane of glass

Advanced IT admin control and visibility

Cloud computing at a fraction of the cost of traditional local computing

Remote IT updates to thousands of thin clients

ENERGY STAR® certified and EPEAT® Gold registered*

*EPEAT® registered where applicable. EPEAT registration varies by country. See <http://www.epeat.net> for registration status by country

Helping Citrix Customers Achieve Success

Jinchuan Group, a metal producing company chose Citrix XenDesktop together with HP Thin Clients to achieve a high level of data security and improved control over end-user devices

H&P Finance B.V., a financial service provider implemented 100% interchangeable workspace with personalized applications for each employee using Citrix and HP technologies

Ebab, one of Sweden's top construction consultancies, used our technologies to achieve cost savings of more \$100,000 per year on hardware expenses
