

### PRODUCT HIGHLIGHTS

---

- Samsung Acoustic Beam Technology
- Dedicated Game Mode
- Bluetooth music streaming
- Seamless integration with Samsung TVs
- 5.1 Channel, 360W

Experience panoramic sound with innovative Samsung Acoustic Beam technology. Sound travels in sync with the motion on the screen, making you feel part of the action. Initiate Game Mode to optimize sound for a richer gaming and entertainment experience, and stream music wirelessly via Bluetooth. Designed to integrate perfectly with your Samsung TV.

### KEY FEATURES

---

#### SAMSUNG ACOUSTIC BEAM

Samsung Acoustic Beam technology mixes and delivers the sound via a set of precisely placed openings at the top of the soundbar, so it appears to come from where the action is happening on screen.

#### GAME MODE

The soundbar's auto settings optimize the sound to the game you're playing. Plug in your console, and get in the game with an immersive audio experience.

#### BLUETOOTH MUSIC STREAMING

Your soundbar also acts as a powerful Bluetooth speaker. Easily play music from virtually any streaming service by connecting your smart device to the soundbar via Bluetooth.

#### MADE FOR EACH OTHER

Don't get stuck with anything less than the perfect fit. The N650 integrates perfectly with most Samsung TVs. Enjoy Plug-and-Play connectivity via wired or wireless connections, control both TV and soundbar with a single remote and fine-tune your sound right from the TV menu.

#### CRYSTAL-CLEAR DIALOGUE

Hear every word with a dedicated center channel that keeps dialogue crystal clear.

#### A TRULY SEAMLESS 4K EXPERIENCE

With 4K pass-through, a simple HDMI connection delivers the best in audio and picture quality. Connect any 4K video source like a UHD Blu-ray player—through the Samsung Panoramic soundbar—to your TV for rich sound and 4K picture quality.

#### POWERFUL BASS

Place the included wireless subwoofer virtually anywhere in your space, and feel the powerful, deep bass.

#### WIRELESS SURROUND SOUND-READY

The Wireless Surround Kit<sup>1</sup> lets you expand your soundbar to a surround sound system easily without the mess of wires.<sup>2</sup> Together with your soundbar, you can create a channel system for a true surround sound experience.

#### SLEEK NEW DESIGN

A brushed metal grill and subtly angled sides give the soundbar a sleek, premium appearance that perfectly complements your TV.

<sup>1</sup>Samsung Wireless Rear Speaker Kit is available for separate purchase (Accessory model: SWA-8500S).

<sup>2</sup>The wireless module requires a power cable. Rear speakers are connected to the module by cable.
