Deep bass you can hear and feel
- wOOx™ loudspeaker Technology for deep and powerful bass

Stay up-to-date
- Keep your Streamium Micro System up-to-date

Features

Wireless broadband access

Wireless PC Link to music file

If you've already got a range of digital music files stored on your PC, there's no need to waste or repeat all that work! Your Micro system becomes part of your home network, connected to both the internet and your PC Link via the gateway router. By pressing the PC Link button on the set, you have instant access to the music files stored on your hard drive. And, even better, you get to play them through the Micro system's crisp, clear, powerful, patented wOOx speakers!

wOOx™ Technology

wOOx technology is a revolutionary loudspeaker concept that allows you to hear and feel profoundly deep bass that is richer than any other audio system. Special speaker drivers work in harmony with the wOOx bass radiator, and precise tuning between the main driver and the tweeter ensures smooth transitions from low-mid to high frequencies. Dual suspension and a totally symmetrical sandwich construction deliver low and precise base without

PHILIPS

noticeable distortion. wOOx produces exceptionally deep and dynamic bass by using the speaker box full volume to truly magnify the impact of the music.

Keep your Streamium up-to-date

Keep your MCi250 up to date. Simply use your Internet connection to download and install software updates for exciting new services and product features.
