HP PrintOS
Print Beat

For HP Large Format Printers

Gain insights to continuously improve printer performance

Make day-to-day print operations more efficient, productive, and enjoyable with PrintOS Print Beat—a cloud-based print optimization solution that delivers historical and near real-time data for better, faster decision-making and improved print operations.

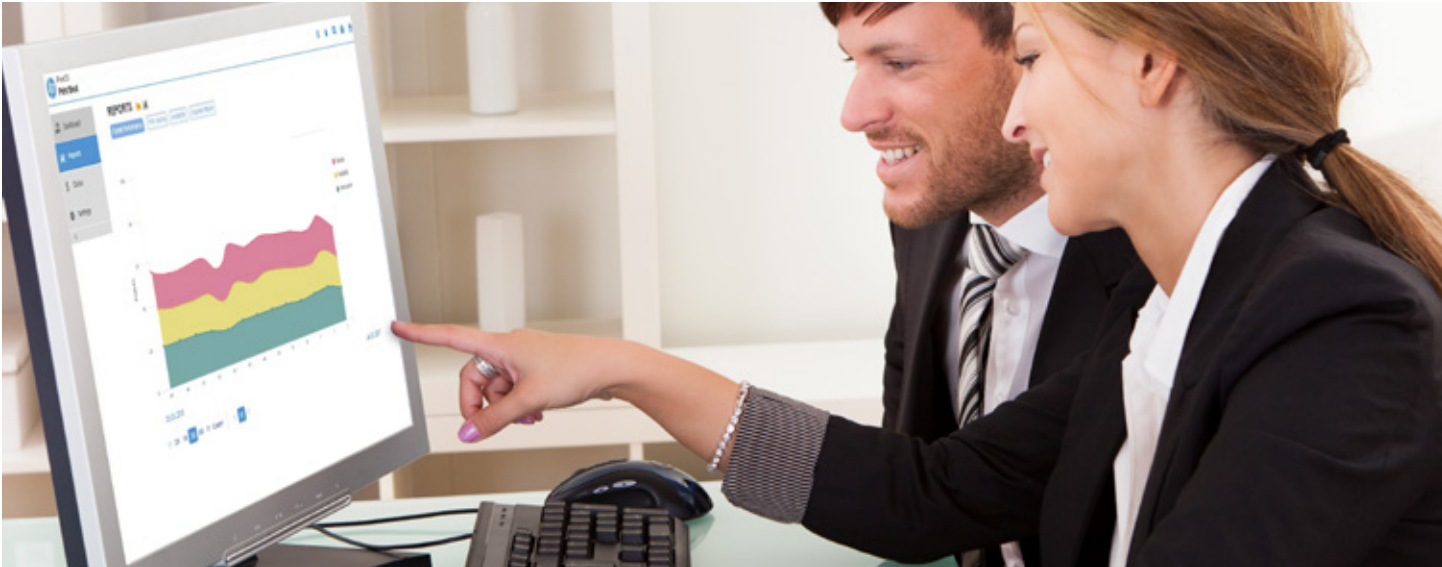

Daily performance and high utilization

With HP PrintOS Print Beat you can now start making better, faster data-driven decisions with ubiquitous access to actionable data for improvements based on your existing usage. Use Print Beat with your HP Large Format Printers to gain access to status updates virtually anytime, anywhere[1]—web browser, or mobile device.

Track printer and site performance

The HP PrintOS Print Beat focuses on three key performance indicators (KPIs) that have a direct impact on printer and site performance—volume, utilization and maintenance. Detailed information on each of these KPIs provides in-depth visibility into production site operations—for one or multiple printers. Make informed decisions for improvements that increase efficiency and uptime—and ultimately, performance.

[1] The HP PrintOS Mobile Application is compatible with Android 4.0 or later and iPhone mobile digital devices running iOS 8 or later, and requires the press/printer and the smart phone to be connected to the Internet.
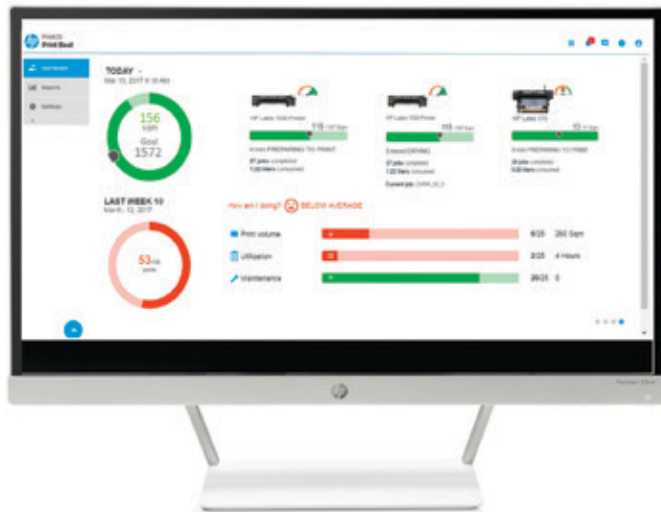

Continuous operational excellence

Key performance indicators provide in-depth visibility into production site operations, enabling quick action and opportunity for improvements.

Gain knowledge, drive improvements

Knowledge is power, especially if it means you're continually evolving and improving. Print Beat enables you to leverage the information you need to do just that.

- Gain visibility—View data for full transparency and attention
- Generate greater insights—KPIs enable continuous operational improvements
- Increase control—Monitor and control status through your Web browser or mobile app, anytime, anywhere[1]
- Drive operational excellence—Benchmark printer performance to make informed decisions that enhance operations and business opportunities
- Print Beat allows you to add new sites in one account for specific site information and reporting

The HP PrintOS advantage

HP PrintOS is a print production operating system with a set of web and mobile apps that help you get more out of HP Large Format printers while simplifying and automating production. HP PrintOS is currently available for HP Latex 3000 Series, HP Latex 1500 Printer and HP Latex 300 and 500 Printer Series. With PrintOS you can continuously improve your operations, inspire your staff, and make better, faster decisions. Use PrintOS to manage any number of jobs from submission to shipment, to collaborate with industry partners and colleagues, and discover new opportunities for growth. Access the open and secure cloud-based PrintOS virtually anytime, anywhere.[1]
