Highlights

Foldable Speaker Stand

Be enthralled with our new Philips Speaker Stand because now you can enjoy listening to your favourite music in any way you want. Thanks to a piece of engineering ingenuity, your audio entertainment will never be the same again with our 2-way foldable stand.

P5 Perfect Picture Engine

If you like streaming, you'll love the P5. This is the latest 5-in-1 Philips picture processing engine and it has been created to optimise sharpness, colour, contrast and motion. It even reduces flaws and optimises the picture to bring the best picture quality to your screen, no matter the source.

Ultra-HD Premium

Ultra HD Premium brings your HDR content to life. Enjoy a sharper, more detailed and more realistic picture with over a billion

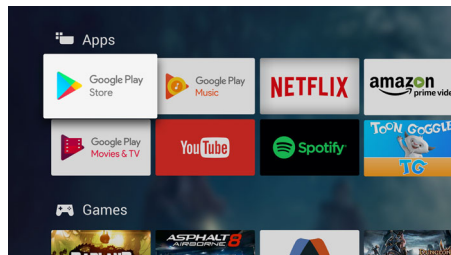

colours, giving you greater depth and incredible vibrancy.

High Dynamic Range Perfect

High Dynamic Range Perfect delivers a sensory experience that captures the original richness and liveliness of your content. Enjoy brighter highlights, ultimate contrast and vivid colours just like the director intended.

TV Content

Go beyond traditional TV programming with Google Play Store and Philips App Gallery.

Experience endless movies, TV, music, apps and games online. More to love.

Perfect Contrast

Dive deeper into the darkness with OLED TV. Organic self-emitting pixels achieve the deepest levels of black because of their unique ability to completely switch off - no light is emitted or passes through the pixel. This brings a huge range of contrast to your screen, bringing shades and colours to life in a way that LED TV technology cannot match.

DTS HD Premium Sound

DTS HD Premium Suite delivers high-end audio processing for better sound from your speakers. Preserving the purity of the original content, you'll enjoy immersive sound, deep bass and crystal clear dialogue without any fluctuations, clipping or distortion.
