Highlights

Lift & Trim system

Trim your stubble beard with our new Lift & Trim system: the comb lifts and guides the hairs to the level of the blades for an even trim.

Stainless Steel Blades

Get a perfect yet protective trim, time after time. The trimmer's steel blades lightly brush against one another, sharpening themselves as they trim so they stay extra sharp and effective as on day 1.

DuraPower technology

The DuraPower technology lowers the friction on the blades, which protects the motor and the battery from being overloaded. This way, the battery life time of your trimmer is increased by 4 times.

USB charging

This beard trimmer comes with a USB cable for more flexible charging via your computer or any USB adaptor. The adaptor is not included (recommended adaptor Philips HQ80).

Skin-friendly blades

Blades have rounded tips for smooth contact with skin to prevent scratching and irritation.

Zoomwheel - 10 length settings

The zoomwheel lets you choose from 0.5 to 10mm length settings, with 1mm precision steps.

30 min cordless use

Charge your trimmer for 8 hours with your USB cable to get 30 minutes of cordless use.

Easy to clean

Detach the head and rinse it under the tap for easy cleaning. Dry it before you put it back on the appliance.

Ergonomic design

Easy to hold and use. Designed to help you trim those hard-to-reach areas.
