

Trust Gaming GXT 764 Liquid CPU cooler - Black

Universal, high performance AIO liquid CPU cooler with 120mm radiator and LED-illuminated fan

Article number: 22545

Barcode: 8713439225457

GTIN: 08713439225457

Core content

Brand	Trust Gaming
Product type	Liquid CPU cooler
Colour	Black
Key features	- Reliable, low-noise cooling system for most Intel® and AMD® processors - Flexible rubber tubing and single fan, to fit almost any ATX case - Aluminium radiator with high-density fin array for maximum surface area - Copper heat sink for outstanding thermal conduction - Quick and easy to install for PC builders of any experience level - Sealed closed-loop design, never needs refilling - Near-silent operation with <30 dBA maximum noise level - Standard 4-pin power connectors - Illuminated 120mm fan with 33 LEDs for a spectacular mood light from your PC case
Package contents	- Pump with tubes and radiator attached - 120mm fan - Mounting brackets for Intel and AMD CPUs - Fan and radiator mounting screws - Thermal compound - User guide - Gaming sticker
System requirements	- PC case with fan header(s) suitable for 120x120 fans - 2x 4-Pin connection

Marketing

Extended retailer text	Find your cool in the heat of the moment. The GXT 764 Liquid CPU Cooler is your reliable, low-noise 120mm AIO system to cool down your processor. Being compatible with most Intel® and AMD® processors, this liquid cooler will keep you cool during intense battles.
------------------------	--

Optimal cooling efficiency

The copper heat sink of the GXT 764 allows for outstanding thermal conduction. The water circulates from the pump to the aluminium radiator with high-density fin array. The maximum surface area of the liquid cooler combined with the illuminated cooling fan make sure the heat is dispelled rather than just moved around for optimal cooling efficiency.

Flexible design

Thanks to the standard 120mm size, this liquid CPU cooler fits into almost any PC case. Powered by standard 4- and 3-pins power connectors, it is made for quick and easy installation. Because of the sealed closed-loop design, you never have to refill the cooler. Whether you’re building your first pc or already have experience creating your own build, this liquid CPU cooler is made easy for everyone!

Cooling light

Apart from its optimal cooling functionality, the GXT 764 brings you other advantages. It works on a near silent operation level with less than 30 dBA maximum noise level. It also comes with a spectacular red mood light with the illuminated 120mm fan with 33 LEDs to complete your build in style.

Specifications

Total weight	685 g
Fan size	120 mm
Noise level (range)	21 - 30 dBA
Rotation speed	400 - 1.300 RPM
Air flow	13 - 86 CFM
Bearing type	Sleeve
Cable length main cable	28 cm
Connector type	4-pin
LED colours adjustable	no
Lights	true

LED colours

Red

Shock absorption

true

Compatible Device Types

pc
