PHILIPS

Highlights

More power for smoother blends

Finer blending of fruits and vegetables, thanks to our 1400W motor.

Unlocks more nutrients

We developed our ProBlend 6 3D technology to ensure that all of the ingredients in your smoothie are finely blended – so the nutrients in fruit, vegetables and nuts are unlocked from the cell structure and easily absorbed by your body.

Up to 35000 RPM

35000 RPM for excellent blending and even healthier smoothies

Large-capacity blender jar

Everyone loves a good smoothie! Our 2.2-liter Tritan copolyester jar has a working capacity of 2 liters to make smoothies for the whole family.

Smoothies preset program

Smoothies preset program made easy for homemade smoothies.

600ml drinking tumbler jar

Make your smoothie directly in the drinking tumbler and take it with you! Our blender comes with a sturdy 600ml drinking tumbler, to make smoothies directly in the tumbler and that easily fits in your bag or backpack.

Choose your blending speed

From gentle blending for soft fruits – to a burst of power for harder fruit and vegetables. It's up to you with our variable manual speed options.

Dishwasher safe, easy to clean

All detachable parts of your Philips blender are dishwasher safe - except for the blade unit, which can be easily rinsed clean. The base can be wiped clean if needed.

Detachable blender blades

To clean the blender blades, simply detach them from the blender jar and rinse. However, the blades cannot be cleaned in the dishwasher, to preserve their sharpness.
