

Wireless Bluetooth Earbuds with TWS-technology (True Wireless Stereo)

MEDION® LIFE® S62010 (MD 43811)

Features

Bluetooth function:

- Bluetooth 5.0
- Wireless music transmission from Smartphone or Tablet
- Range approx. 15m (depending on the environmental conditions)

Hands-free function

Are the earbuds connected once with the Smartphone/Tablet, they will connected automatically, as soon as you take out the earbuds of the charging case.

Thanks to TWS technology the earbuds will pair automatically with each other – completely without cable

Stylish charging case (280 mAh) – Automatic switch on and off prevents that the battery discharge itself

Listen your favorite music when and where you want – up to 4 hours with the integrated Lithium battery (50 mAh)

IPX5 – Hose water protection
