

Sandberg Solar Charger 13W 2xUSB

Sandberg Foldable Solar Charger is a highly efficient solar panel that converts sunlight to electricity. It features 2 USB outlets that can be used for charging your USB devices, such as smartphone, tablet or powerbank. By connecting to a powerbank, you can save the electricity there for later charging of your smartphone or you can use it as a stabilising intermediary when charging (if your powerbank supports simultaneous power in and out). The USB outputs are placed in a practical zipper pocket with plenty of room for your USB gear. The supplied snap hooks can for instance be used for attaching the solar panel to your backpack when you are on an adventure. This is green energy for your equipment!

DDworld:

"The Sandberg solar panel absolutely surprised me. It is indeed a usable mobile solar charger, which, thanks to its folding design, is ideal for trips or vacations where you do not have sufficient access to the power grid."

Specifications

Description: Sandberg Solar Charger 13W 2xUSB

Product category: Mobile accessories - Powerbanks

EAN 5705730420405

Solar panel output: 13.0 W / 6 V

Solar cell: Sunpower, High efficiency 22% transfer rate
