- AdaptiveClean brush head flexes along your gum line

Designed around you

- USB charging travel case charges your handle anywhere
- Easy start program builds your Philips Sonicare routine
- Timers encourage thorough 2 minutes of brushing

PHILIPS

Features

Gentle daily whitening

Naturally whiten teeth with our unique sonic technology. 31,000 brush strokes per minute help remove everyday stains from food and drink so you can gently brighten your smile each time you brush.

Philips Sonicare technology

Powerful sonic vibrations whip up your toothpaste into plaque fighting bubbles, and drive them deep between your teeth and along your gum line. At the same time your teeth will experience 62,000 gentle but effective brush movements. You'll get a month's worth of manual brushing in just 2 minutes.

4 modes

Tailor your gum care with FlexCare. Boost your clean with 4 modes including Clean – for an outstanding all-round clean, Gum Care – to stimulate gums and improve gum health, White – to remove surface stains and Sensitive – for gentle yet thorough gum cleaning.

Up to 2x whiter teeth

Click on our DiamondClean brush head to gently yet effectively remove surface stains. Densely packed central stain removal bristles work hard to make your smile naturally whiter by removing up to 100% more stains.*

Deep, gentle gum cleaning

Click on our AdaptiveClean brush head for a deep, gentle clean that removes up to 10x more plaque and leaves gums up to 2x healthier in 2 weeks than a manual toothbrush. Soft rubber sides flex along every contour of your teeth and gums to absorb any excess.

Charge while on the go

Now you can charge your toothbrush while on-the-go with the new charging travel case. Charging can be done with a USB port or wall outlet.

Ease into your new routine

Starting something new can take some getting used to. Our easy-start program gives you the option of a gradual, gentle increase in brushing power with the first 14 uses with your new toothbrush. Together they help you reach your recommended brushing time, every time.

QuadPacer and Smartimer

It takes just 2 minutes to thoroughly brush your teeth. Our QuadPacer lets you know when you've spent the optimal amount of time on each section of your mouth while our Smartimer signals when your total time is up.

Brush with confidence

Whatever your specific needs, you can be sure of a safe brushing experience with the Flexcare. Our sonic technology is suitable for use with braces, fillings, crowns and veneers, and can even be used in the daily treatment of gum disease.
