

	CX480111		Characteristics		
	Full surface induction cooktop		Product name/family		
	Stainless steel frame		Cooking zone ceramic		
	Width 80 cm		Construction type		
			Built-in		
			Energy input		
			Electric		
			Total number of positions that can be used at the same time		
			4		
			Type of control setting devices		
			Required niche size for installation (HxWxD)		
			65 x 780-780 x 490-490		
			Width of the product (mm)		
			804		
			Dimensions of the product (mm)		
			65 x 804 x 520		
			Dimensions of the packed product (HxWxD) (mm)		
			120 x 930 x 615		
			Net weight (kg)		
			27.5		
			Gross weight (kg)		
			29.0		
			Residual heat indicator		
			Separate		
			Location of control panel		
			Hob front		
			Type of external control possibility		
			Basic surface material		
			Color of surface		
			anthracite, Stainless steel		
			Color of frame		
			Stainless steel		
			Approval certificates		
			AENOR, CE		
			Length electrical supply cord (cm)		
			150		
			Knob Material		
			Sealed Burners		
			No		
			heating with booster		
			All		
			Type of pan support		
			Natural Gas Connection Rating (BTU)		
			LP Gas Connection Rating (BTU)		
			Dimension of 1st heating element (in)		
			Power of heating element (kW)		
			3.6		
			Power of 1st burner (BTU)		
			Dimension of 2nd heating element (in)		
			Power of 2nd heating element (kW)		
			Power of 2nd burner (BTU)		
			Dimension of 3rd heating element (in)		
			Power of 3rd heating element (kW)		
			Power of 3rd burner (BTU)		
			Dimension of 4th heating element (in)		
			Power of 4th heating element (kW)		
			Power of 4th burner (BTU)		
			Dimension of 5th heating element (in)		
			Power of 5th heating element (kW)		
			Power of 5th burner (BTU)		
			Dimension of 6th heating element (in)		
			Power of heating element (kW in boost)		
			[4.6]		
			Power of 2nd heating element (kW in boost)		
			Power of 3rd heating element (kW in boost)		
			Power of 4th heating element (kW in boost)		
			Power of 5th heating element (kW in boost)		
			Power of 6th heating element (kW in boost)		
			Consumption and connection features		
			Electrical connection rating (W)		
			7400		
			Gas connection rating (W)		
			Current (A)		
			Voltage (V)		
			220-240		
			Frequency (Hz)		
			60; 50		
			Universal Product Code		
	825225915249				
			Main colour of product		
			anthracite		

	One single big cooking surface	
	Free positioning of cookware	
	All sizes and formats of cookware can be used	
	TFT touch display for an intuitive control of all functions	
	Max. power output for big cookware of up to 4.4 kW	
	Precision crafting of 3 mm stainless steel	
	For surface installation with a visible edge or for flush installation	
	Can be combined perfectly with other Vario appliances of the 400 series	
	Cooking zones	
	One unique cooking surface of 2800 cm².	
	Up to 4 items of cookware can be placed simultaneously on the cooktop.	
	Handling	
	Easy to use colour graphic TFT touch display with use indications.	
	Electronic power control in 17 output levels.	
	Features	
	Booster function.	
	Individual pot detection.	
	Cooking timer for each cooking position.	
	Timer.	
	Information key with use indications.	
	Power management.	
	Safety	
	Main switch.	
	Residual heat indicator.	
	Child lock.	
	Display cleaning protection.	
	Planning notes	
	Depending on the type of installation (surface-mounted or flush-mounted), the specific definition of the cut-out must be observed.	
	If installing with the appliance cover VA 440 or adjustment strip VA 450 take into account the additional space required for the depth.	
	If combining several appliances with at least one appliance cover, the adjustment strip VA 450 is required to compensate for the depth of the appliance without the appliance cover.	
	If combining several Vario appliances of the 400 series, a connection strip VA 420 must be placed between the appliances. Depending on the type of installation, the corresponding connection strip must be provided.	
	In the cut-out, the installation system requires the side edge to be at least 10 mm for surface installation and at least 13 mm for flush installation. Ensure a continuous cut surface of 90°.	
	The bearing capacity and stability, in the case of thin worktops in particular, must be supported using suitable substructures. Take into account the appliance weight and additional loads.	
	Additional instructions for flush installation:	
	Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer.	

	even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining.	
	The joint width may vary due to size tolerances of the combinations and of the worktop cut-out.	
	If installing several appliances in individual cut-outs allow for a division bar of minimum 50 mm between the individual cut-outs.	
	Operates with magnetic (induction) iron pots and pans only. For an optimal heat distribution, the use of sandwich bottom cookware is recommended.	
	The wok pan WP 400 001 cannot be used with this appliance.	
	Immersion depth 65 mm.	
	Intermediate shelf is required.	
	Appliance can be snapped into the worktop from above.	
	Appliance weight: approx. 28 kg.	
	Connection	
	Total connected load 7.4 kW.	
	Connecting cable 1.5 m without plug.
