- Replacement filter: China

Purification system

- Chlorine removal: > 99%

Water input conditions

- Input water pressure: 1.5-3.5 bar
- Input water temperature: 5-38 °C
- Input water quality: Municipal tap water

Highlights

Refreshing and tasty water

Granular activated carbon filter can remove residual chlorine by more than 99%, and adsorbs odors effectively.

Ingenuity design

A simple rotation of the water selection lever switches the water flow from regular, unfiltered tap water (stream or spray) to effectively treated filtered water.

Filters are easily changed

Eject the used filter by pushing the switch and simply insert the new one.

Easy installation

This advanced water purifier comes with a number of tailor-made Quick Fit tap adapters to help in the easy and simple installation of your purifier onto your tap.

One-piece disposable filter

Convenient and safe to discard the one-piece filter after use, avoiding secondary pollution.
