# HP Latex R2000 Plus Printer

Unprecedented quality and colors<sup>2</sup> on rigid and flexible up to 98 inches, for sustained production environments

#### Achieve amazing colours and media look and feel

- Help increase profitability with higher value rigid and flexible applications with vibrant HP Latex gamut.
- Gain versatility with HP Latex Ink—from . indoor/outdoor signage to thermoforming and high-guality decoration.
- Win more jobs with UL ECOLOGO® Certified. water-based HP Latex Inks that produce odorless prints.3

#### Expand your offering with the glossiest white<sup>1</sup>

- Expand your portfolio into a wide range of applications with glossiest white that resists vellowina.
- No waste between white jobs<sup>4</sup> with removable HP Thermal Inkjet printheads stored in offline rotating chamber.
- You're always ready to print white—automatic recirculation and printhead cleaning eliminate manual purging.

#### Increase your productivity with smart printing

- Meet production peaks—get high-speed quality up to 28 outdoor boards/hr<sup>5</sup> with belt system, smart vacuum.
- Drive high productivity with multi-board printing, • assisted loading, and advanced queuing.
- Maximise uptime with automatic maintenance and smart service tools for fast diagnosis and issue resolution.
- Maintain control of your production and costs with the help of HP PrintOS software tools.

Dynamic security enabled printer. Contains technology that may prevent cartridges with non-HP chips or circuitry from working now or in the future. More at: http://www.hp.com/learn/ds

<sup>1</sup> Glossiest white based on internal HP testing in January, 2018 compared to the HP Scitex FB750/FB550 Printer using UV-curable ink technology. White ink measured for the level of gloss at 60 degrees on a rigid material (acrylic). Tested using Glossmeter BYK micro-TRI-gloss (20°, 60°, 85°), compatible with ISO 2813 and ASTM D523 relative to glossiness measure. High opacity and resists yellowing over time based on internal HP WeatherOmeter testing October, 2017 with 1 dot-per-pixel HP Latex Overcoat, on a range of rigid and flexible unlaminated substrates. Yellowing based on L\* and B\* of white underflood samples. <sup>2</sup> Most vibrant colours based on internal HP testing, January 2018 compared to leading competitive printers under \$350,000 USD. Tested in High Quality print mode on rigid (white acrylic 12-pass, 6-colour, 120%). Internal

HP testing with HP GamutViewer, Alpha Shapes=50000. <sup>3</sup> HP Latex Inks are UL ECOLOGO® Certified. UL ECOLOGO® Certification to UL 2801 demonstrates that an ink meets a range of multi-attribute, lifecycle based criteria related to human health and environmental considerations (see http://www.ul.com/EL). There is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print. <sup>4</sup> When HP 886 White Latex Printheads are placed in the storage cassettes, no white ink is used for servicing when printheads are not in use. <sup>5</sup> Outdoor mode 3-pass, 70%. On 4 x 8 ft (1.2 x 2.4 m) boards.

## **Technical specifications** Drint

Printing modes	22 m²/hr - Indoor High Quality (12p 120%) 43 m²/hr - Indoor Production (6p 110%) 86 m²/hr - Outdoor (3p 70%) 36 m³/hr - White Spot (100%) 16 m²/hr - White Overflood/(100%) 2.2 m²/hr - Jayers day & night <sup>1</sup>
Print resolution	Up to 1200 x 1200 dpi
Ink types	Water-based HP Latex Inks
Ink cartridges	9 (cyan, magenta, yellow, black, light cyan, light magenta, HP Latex Optimiser, HP Latex Overcoat, white)
Cartridge size	5 L (colours, HP Latex Optimiser, HP Latex Overcoat); 3 L (white)
Printheads	8 (cyan/black, magenta/yellow, light cyan/light magenta, HP Latex Overcoat, 2 HP Latex Optimiser, 2 white)
Long-term print-to-print repeatability	Average < 1.0 dE2000, 95% of colours < 2 dE2000 <sup>2</sup>
Media	
Handling	Flatbed, sheet feed, roll feed, vacuum belt media drive for easy loading and accurate media advance
Media types	Rigid substrates: paper foamboard, plastic foamboard, PVC foam, plastic corrugated, acrylic, polycarbonate, polystyrene, compressed cardboard, corrugated board, honeycomb board, aluminum composite panel, wood, glass, ceramic; Roll substrates: PVC banner, self-adhesive vinyl, coated paper, polypropylene, polystyrene, polycarbonate, polyester, texile (non porcus), canwas, leather
Rigid media size	297 x 420 mm to 2489 x 1220 mm (up to 2489 x 3050 mm with two sets of optional extension tables)
Roll size	60.9 cm to 2.49 m
Maximum roll weight	Up to 100 kg
Maximum roll diameter	Up to 25 cm
Thickness	Up to 50.8 mm
Applications	Signage: indoor, flat, backlit, thermoformed; Decoration: wall coverings, window decoration; Vehicle decoration: fleet graphics, wraps, decals; Textile: soft signage, frontlit, backlit; POS and Packaging: corrugated displays, short-run customised packaging, prototyping
Connectivity	
Interfaces	Gigabit Ethernet (1000Base-T)
Dimensions (W x D	) x H)
