HP ENVY 795-0005na

Pushing performance to new heights

When captivating design fuses with incredible power, your household can conquer anything that comes your way. The ENVY desktop realizes your full potential and holds nothing back. From creating brilliant content to showcasing a new arena in entertainment—every moment continues to push the envelope.

Power up
Nothing is out of reach with the latest Intel® Core™ processor[1] and powerful NVIDIA® GeForce® GTX 1080 graphics. From 3-D video renders to the most advanced multimedia—push your most demanding apps to the limit.

Performance-driven design
Now more sleek and sophisticated than ever, its space-saving design is the perfect blend of form and function. With a brushed aluminum bezel and rounded edges, it performs just as beautifully as it looks.

Serious storage
Catalog your entire digital library with up to 512 GB[3] PCIe SSD storage plus three 3TB HDD[2] storage slots. It's enough storage to satisfy your ever-expanding needs.

[1] Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering is not a measurement of clock speed. [2] For hard drives, TB = 1 trillion bytes. Actual formatted capacity is less. Up to 35 GB of hard drive is reserved for system recovery software. [3] For solid state drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 35 GB of system disk is reserved for system recovery software. Data is split across both drives and may become inaccessible in the event of a drive failure.

HP ENVY 795-0005na

Featuring

Dual display support
Add a second display for a more immersive computing experience. With dual monitors, you can increase your productivity, boost your gaming experience, or just make multitasking easier.

USB 3.0 connector
With the world's most popular USB connection, you can easily connect any of your existing USB devices and experience data transfer speeds ten times faster than USB 2.0.

HP Support Assistant
Included with your computer, this free self-help tool makes it easier than ever to get help with your HP PC and printers.[19,20]
