

25ft CAT6 Cable - Purple CAT6 Ethernet Cable - Gigabit Ethernet Wire - 650MHz 100W PoE RJ45 UTP CAT 6 Network/Patch Cord Snagless - Fluke Tested/Wiring is UL Certified/TIA

Product ID: N6PATCH25PL

This 25-foot Cat6 cable meets or exceeds all Category 6 cable specifications to ensure reliable Gigabit network connections. Plus, the cable features a durable purple PVC jacket that enables you to color code your network cable runs as needed.

For easier cable runs, the snagless connectors protect the cable's RJ45 clips during installation, making them less likely to snag or break. This ensures a sturdy connection by preventing the cable from becoming loose from the port.

The cable features molded boots that offer connector strain relief, by stopping the RJ45 connector termination points from bending at sharp angles, and reducing the risk of damage to the cable, which could decrease network performance.

Get the highest value for your cable investment with our Cat 6 cables, each one manufactured using high-quality copper conductors.

Ensure high-performance capability for your demanding Ethernet applications, such as Power-over-Ethernet, using cables that include 24 AWG copper.

Rely on our RJ45 connectors to deliver optimum conductivity while eliminating signal loss due to oxidation or corrosion.

The N6PATCH25PL is backed by StarTech.com's lifetime warranty for guaranteed reliability.
