Quad View KVM Switch Pro
No.: 32327

Description

- Simultaneously control 4 computers from a single workstation
- Supports Quad View, PiP, PaP and Full Screen Modes
- Dual Video Output allows 2 local displays to be connected
- Multiple units (up to 8) can be daisy chained to control up to 32 computers
- A Remote IP Module (No.32328 sold separately) can be added to create a Remote Console
- 2 year warranty

The Quad View KVM Switch Pro provides a number of different viewing modes, allowing you to view the connected computers/video sources in a layout which best suits your requirements:

Quadview
In Quadview, the screen is split into four equal fields. Each field displays the entire screen content of its source video or computer. Keyboard & Mouse operations are switched by selecting (using the front panel buttons, hotkeys or the OSD menu) the corresponding computer's quad. Quadview is only available via the primary video output.

PiP (Picture in Picture)
When the Picture in Picture function is activated, on of the video sources is displayed as thumbnails on top of a full-screen image from the primary selected source. This allowsit to be monitored alongside a main feed. The position and size of the thumbnails are a customisable. PiP is only available via the primary video output.

PaP (Picture and Picture)
When the Picture and Picture function is activated, three of the four video sources are displayed as thumbnails down the right side of the display next to primary source. This allows them to be monitored alongside a main feed. The active channel, position and size of the thumbnails are all customisable. PaP is only available via the primary video output.

Full screen mode
In Fullscreen mode, one of the four video sources is shown full screen and at maximum resolution. Keyboard & Mouse operation automatically switches to the corresponding computer when channels are switched. Full screen mode is available on primary, secondary video outputs.

In addition to its video capabilities the Quad View Pro features a USB hub and support for analogue audio for each input. These ports can be automatically switched along with video input, or if required switched independently.

Package Contents:

1 x Quad View KVM Switch Pro
1 x IEC Power Adapter 100…240VAC / 12V 5.0A
1 x IEC mains cable
1 x LINDY Manual (QIG)
1 x RJ45 to DB9 female (RS232) serial cable
4 x DVI-D Cable 2m long
4 x USB A/B m/m cable 1.80m
4 x Audio Stereo Cable (Jack 3,5mm m/m) 1,80m
1 x 19" Rack Mount Kit (brackets & small screws)

Technical details

Specifications
- AV Interface: DVI-I
- Console Interfaces: USB
- Interface Standard: DVI-D 2.0 (Single Link), USB 1.1
- Maximum Resolution: 1920x1200@60Hz
- HDCP Support: -
- Supported Audio: Analog Stereo
- Separate Audio Ports: 2 x 3.5mm (Female)
- Serial Interface: Yes (Adapter Cable included)
- Console Number: 1
- Max Number PC/Server: 4
- Cascadable: Yes
- Switching Method: Port Buttons, Hotkey Switching (Hotkey Configurable), Web Interface, Serial Interface
- 19" Rack Mountable: Yes (1U - Rack Mount Brackets Included)
- Special Features: Optional IP Remote Console Module No.32328

Connectors
- Console Interfaces: 2 x DVI-D (Female), USB Type A HID (Female), 2 x 3.5mm (Female)
- PC/Server Interfaces: 4 x DVI-D (Female), USB 2.0 Type B (Female), 2 x 3.5mm (Female)
- Other Interfaces: 2 x USB 2.0 Type A (Female) Shared Ports (Front Panel)
- Power: 5.5/2.1mm DC socket

Physical Properties
- Dimensions WxDxH: 440x200x45mm (17.32x7.87x1.77in)
- Housing Material: Metal
- Net Weight: 2.7kg (5.95lb)
- Operating Temperature: 0°C - 40°C (32°F - 104°F)
- Storage Temperature: -20°C - 60°C (-4°F - 140°F)
- Humidity: 0~90% RH (non-condensing)
- Power Requirements: 12VDC 5A
- Colour: Black

Miscellaneous
- Packaging Type: Carton box
- Packaging Dimensions: 500x420x120mm (19.69x16.54x4.72in)
- Gross Weight: 6.5kg (14.33lb)
- Warranty (Years): 2
- Certificated: CE, FCC, RoHS & REACH

Package Content
- KVM Switch
- 2 x 19" Rack Mount Bracket With Screws
- IEC Power Adapter Including IEC Mains Cable
- LINDY Manual
