# DIN Rail-Mounting Bracket for Digital Signage, Version 1 - 41 mm mounting distance

MODEL NUMBER: **B110-DIN-01**

DIN rail bracket securely mounts select Tripp Lite extenders and other digital signage devices to a standard 35 mm DIN rail.

Features

DIN Mounting Bracket Ideal for Attaching Your Digital Signage Components to a DIN Rail This black aluminum DIN bracket is designed for securely mounting splitters, extenders and other select digital signage devices to any standard 35 mm DIN rail. Consisting of a durable U bracket and rail clip, the B110-DIN-01 firmly attaches to both lips of the DIN rail to prevent your mounted equipment from being jostled and connected cables from coming loose. It's an ideal accessory for setting up a digital signage system in restaurants, offices, banks, hotels, schools, doctor's offices and a wide range of retail establishments.

Simple Mounting Process Takes Just a Few Minutes Just use the included screws to attach the aluminum U bracket to the compatible device. Attach the aluminum rail clip to the bracket, and securely mount the unit on a 35 mm DIN rail, making sure the spring goes over the rail's top lip.

Compatible with a Wide Range of Digital Signage Devices This DIN rail-mounting bracket attaches to units with mounting holes spaced 41 millimeters apart. Select equipment includes the B126-Series, B130-Series, B140-Series and BHDBT-Series of transmitters, receivers and extenders.

Lifetime Warranty The B110-DIN-01 is backed by a lifetime warranty, ensuring reliability and performance.

Highlights

- Durable U bracket and rail clip mount firmly to any standard 35 mm DIN rail
- Holds digital signage device securely in place to prevent unwanted movement
- Easy to mount in just a few minutes, so you can get your system up and running quickly
