Proven benefits

- Independent research shows improved energy levels with users
- Clinically proven* to improve mood and energy
- 100 years of Philips expertise in light technology

Highlights

Natural blue light

goLITE BLU energy light produces a particular kind of pure blue light that occurs naturally on very sunny, clear days. Special receptors in the eyes absorb this blue light, which makes you feel energetic whenever you need it.

Fights the winter blues

In countries with long winters, many people experience loss of energy and low spirits due to lack of light. These symptoms are referred to as the winter blues. They typically start in autumn and may last for several weeks. Philips goLITE BLU is a simple and natural way to alleviate these symptoms and restore your summer mood and energy level.

Increases energy levels

Our busy lifestyles demand a lot from us and we want to be at our best both during work and private time. Sometimes we experience low moments or dips during the day. Using the goLITE BLU energy light at any time of day will

help you to increase your energy levels and alertness in a natural way.

Use for 15-45 minutes per day

Place goLITE BLU in your field of vision—no need to look directly into the light. Using the goLITE BLU energy light for at least 15 minutes naturally improves your mood and energy level whenever you need it. Using it for longer is absolutely safe. Regular use every morning during the winter months will help to alleviate symptoms of the winter blues.

Simple timer and dimmer

Set the timer according to your needs to 15, 30, 45, 60 minutes and choose the right brightness from the three levels by using the dimmer.

Long lasting LEDs

The durable LED lights in the goLITE BLU energy light can be used for 30 minutes a day for 50 years, without losing efficacy.

UV-free

The pure, blue light increases your energy naturally, like on a sunny day, but without the UV rays associated with sunlight.

Improved energy levels

Independent research shows that 70% felt their energy levels improved after using for 2 weeks. Bzz Agent UK 2011; n = 823

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas — Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.
