# Healthy air always

with healthy air protect lock

Breathe healthy air with Philips stylish air purifier. Its professional filtration system filters out bacteria, allergens and harmful agents. The healthy air protect lock assures you of healthy air always.

## Benefits

### Healthy Air

- With professional filtration system
- Boost power function cleans air quickly at high speed

### Always

- Healthy air protect alert warns you when to replace filter
- Healthy air protect lock ensures healthy air always

### Simplicity

- Fully automatic operation ensures hassle-free functioning
- Smart Night mode lowers activity level during the night
- 4-step light indicators clearly show air quality level
- 5-step fan speed allows you to adjust speed level you want

# PHILIPS

## Features

### Professional filtration system

The professional filtration system cleans air of harmful agents in 4 stages: In stage 1, the antibacterial pre-filter catches big particles like hair and dust. In stage 2, the HEPA and multi-care filter combination removes ultrafine particles larger than 20nm including some viruses\*. In stage 3, the activated carbon filter effectively removes odors and harmful gases. In stage 4, the HEPA filter with its antibacterial coating filters out fine dust and eliminates germs and mould.

### Healthy air protect alert

Healthy air protect alert warns you timely when you have to replace a new filter. When the filter is not replaced in time, the appliance stops functioning to avoid running with no effect since filter is full.

### Boost-power function

When in BoostPower mode, the high fan speed quickly purifies the air.

### Healthy air protect lock

Healthy air protect lock function ensures you healthy air always. It shuts off the purifier when healthy air can no longer be guaranteed. When one of the filters is almost full and has to be cleaned or replaced, the Healthy air protect alert warns you to replace or clean filter. When users do not replace concerned filter, the appliance stops operating and the appliance is locked.

### Fully automatic operation

Fully automatic operation ensures hassle-free functioning. The built-in sensor (particle) measures the air quality in the room and automatically selects the appropriate speed setting to guarantee the best possible air quality in your rooms. The multiple color indicator informs you on the actual air quality, and will be red, deep purple and purple if the air quality is not yet good enough, and blue when the air is clean and healthy again.

### Smart Night mode

In Auto mode, the appliance automatically switches to Night mode when the room becomes dark. Under the Night mode, the appliance switches to lower activity level, the lights go out (except Power On/Off light), the fan speed and noise level are reduced and the energy consumption is minimised. If the room becomes bright again for 5 minutes or longer, the appliance resumes normal operation. In Night mode, the auto control is still active. If the air is clean, the appliance stops running. If the air quality deteriorates, the appliance is activated with lower activity and lights still out.

### 4-step air quality indicators

4-step light indicators clearly show air quality level: Blue - Very Good; Deep Purple - Good; Purple - Fair; Red - Bad

### 5-step fan speed

5-step fan speed allows you to adjust speed level you want (fan speed indicators on control panel)

## Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

### Performance

CADR (cigarette smoke) 309 m<sup>3</sup>/h\*\*

Filters out PM2.5 >99%\*\*\*  
Filters out bacteria >99.9%\*\*\*\*

#### Interactivity

Frequency	50 Hz
Voltage	220-240 V
Air quality sensor(s)	particle
Cord length	2 m
Noise level	20 (Silent) - 50 (Boost Power) dB
Wattage	47 W

#### Design specifications

Control panel	oyster metallic
Front cover	metallic white
Deco Ring	oyster silver
Materials of main body	ABS plastic

#### Logistic data

12 NC (China)	883 4072 00711
12 NC (Hong Kong)	883 4072 00451
EAN F box (China)	87 1010345904 0

EAN F box (Hong Kong)	87 1010345902 6
Country of origin	Korea

#### Replacement

Multi-care filter	AC4141
AC filter	AC4143
HEPA filter	AC4144

#### Weight and dimensions

F-box dimensions (W x D x H)	290 x 450 x 740 mm
Product dimensions (W x D x H)	200 x 355 x 640 mm
F-box weight (incl. product)	9.5 kg
Product weight	7.2 kg

\* According to publications of World Health Organization, the avian influenza, human influenza viruses and Legionella are larger than 20 nanometers.

\*\* Tested by Shanghai Institute of Measurement and Testing Technology (SIMT) in 30m<sup>3</sup> chamber according to GB/T18801-2008, cigarette smoke used as the particle pollutants

\*\*\* Tested by SIMT in 30m<sup>3</sup> chamber according to GB/T18801-2008 and GB/T18883-2002, inhalable particles of size smaller than 2.5µm as particles pollutants sampled in mass concentration, initial concentration 5.0±0.5mg/m<sup>3</sup>, testing time 1hr

\*\*\*\* Tested by Shanghai Institute of Measurement and Testing Technology (SIMT) in 30m<sup>3</sup> chamber according to GB21551.3-2010, (Staphylococcus albsp) 8032 as testing bacteria
