

Philips
Water purifier

Ultra Pure

WP3870

Pure water guaranteed

with Ultra Pure Protect

Pure water, guaranteed: free of viruses, bacteria and cysts, with a high-tech locking system that closes your filter when it reaches its lifetime. It offers one of the highest performances in the market without the need of electricity.

Pure water

- Ultra Pure Protect filter guarantees maximum purification
- Pure Water Reservoir automatically refills and stores water

Guaranteed

- Ultra Pure Protect lock guarantees pure water, always
- Triple-gold seal awarded by WQA for maximum performance
- Maximum performance certified by InMetro in Brazil

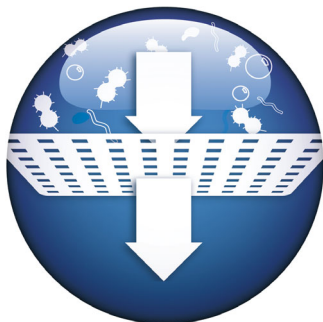

Sustainability

- Certified Green Product: Strong commitment to sustainability
- Maximum performance without the need of electricity

PHILIPS

Highlights

Ultra Pure Protect filter

The advanced Ultra Pure Protect filter is a multi-step filtration technology with an ultra filtration hollow fiber membrane that effectively removes viruses, bacteria and cysts. Additionally, the integrated granular activated carbon improves taste and removes chlorine and many harmful dissolved chemicals such as pesticides and herbicides. Ultra Pure water for you and your family.

Ultra Pure Protect lock

Each Ultra Pure Protect filter has a built-in high precision locking mechanism that makes the system shut down before the filter reaches the end of its life. This ensures that you replace your filter in time. Each new filter will be able to purify 2000 litres of water, which equals the drinking water consumption of an average family (4 people) in approximately 6 months. Ultra Pure Protection to you and your family.

Pure Water Reservoir

The Pure Water Reservoir is continuously connected to your water supply. The reservoir automatically refills non-stop, and can store up to 4 litres of pure water for your maximum convenience.

Triple gold seal by WQA

The Water Quality Association (WQA, USA) awards the Triple Gold Seal to those devices that have met or exceeded industry standards for contaminant reduction, structural integrity, and material safety. The Triple Gold Seal certificate granted by the WQA implies that this water purifier supplies you with microbiologically safe drinking water as tested according to the USEPA Microbiological Guide. More specifically, this water purifier effectively removes all bacteria, viruses and cysts in your water following the highest international standards of quality.

Approved by InMetro

InMetro, the Brazilian Institute of Metrology, most respected institution for product evaluation and approval in South America, has tested and certified this product with maximum performance on water purification, complying with all Brazilian standards.

Philips Green Product

asimpleswitch.com

Certified by Royal Philips Electronics as Green Product. Green Product means performance of device is at least 10% better than main competitors on very important sustainability topics (e.g. energy efficiency, product weight, lifecycle management, etc.).

No energy consumption

Designed to operate without electricity while offering maximum performance. Supports sustainability.

Specifications

General specifications

- Water selection: filtered stream
- Water flow rate: 5 °C
- Water flow rate: 2.5 l/min
- Reservoir refilling rate: 2 l/min

Design specifications

- Color(s): white and silver
- Product weight: 3 kg
- Product dimensions (L x W x H): 295 x 195 x 330 mm
- Materials: plastic

Purification system

- Bacteria removal: 99.9999 %
- Chlorine removal: >80 %
- Turbidity removal: 3000 liters or approx. 1 year
- VOC Removal
- Hormones removal
- Pesticides removal
- Cysts removal: 99.9 %
- Virus removal: 99.99 %

Filter specifications

- Filter lifetime: 2000 L or approx. 6 months
- Major filter components: granular activated carbon GAC, pre-filter of sediments, ultra filtration membrane

Water input conditions

- Min. input water pressure: 0.2 bar
- Max. input water pressure: 4 bar
- Max. input water temperature: 40 °C

Country of origin

- Replacement filter: The Netherlands
- Water purifier: Brazil

Sustainability

- Packaging: > 90% recycled materials
- User manual: 100% recycled paper
- Sustainability certification: Green tick
