- USB Power Delivery capable up to 60W
- 2 year warranty

The Lindy Thunderbolt 3 Docking Station is a powerful and multifunctional solution for connecting notebooks and Macbooks to a range of interfaces including dual displays, using a single cable.

Only Thunderbolt 3 with its incredible bandwidth of 40 Gbps allows two 4K 60Hz displays simultaneously or even one 5K 60Hz display while outputting video and audio signal at the same time. It is an essential tool for professional creatives to streamline their workflows, no matter whether for photo and video editing, rendering in real-time, 3D graphics, virtual reality or computer-aided design. Thunderbolt 3 helps to avoid bottlenecks for demanding work in general.

Featuring all the interfaces needed for a standard workstation, the Lindy Thunderbolt 3 Docking Station uses a single cable to connect to a notebook or Macbook to simultaneously provide dual monitor capabilities at 4K60Hz, Power, Gigabit Ethernet, an SD card reader, Audio and a USB 3.1 SuperSpeed hub. The Docking Station also allows powering of the connected devices and charging of your notebook/Macbook through the Power Delivery port at the same time with 60 Watt.
