2

1 Overview of the product (Fig. 1)

- ① AC power plug
- ② LED indicator
- ③ Notebook connector cable
- ④ Notebook tips list
- ⑤ Notebook connector tips
- ⑥ Connector tips holder

2 Get started (Fig. 2)

- 1 From the notebook tips list, select the tip that matches your notebook model.
- 2 Connect the connector tip to the notebook connector cable.
- 3 Connect the power adaptor cable to the power socket of your notebook and a AC power socket.
↳ The LED indicator lights up.

Disclaimers:

To prevent damage to the notebook, select the tip that matches the notebook model. Please refer to the Quick Start Guide (Notebook tips specification table), pamphlet at package or visit www.philips.com (Search > SPJ7100) for the correct tip selection

This product is intended only for sales outside the USA.

Only for sales outside the USA.

3 Troubleshooting

Problems	Causes	Solutions
The portable notebook power adapter does not work properly (or the LED indicator is on but your notebook is not charged properly).	The selected tip may not fit the notebook that you connect with.	Ensure you connect the right tip according to the notebook tips list at tips holder; pamphlet at package or www.philips.com (Search > SPJ7100) for the updated tip selections.
The portable notebook power adapter is hot and your notebook is not charged properly (or the LED indicator is blinking with AC power supplied).	The portable notebook power adapter is connected with higher input power notebook(>65W).	Your notebook is still being charged. The notebook power adapter will work again after it cools down.
I am not sure if the tip voltage fits my notebook.	N/A	There are voltages embossed at the tips, e.g. 16V, 19V, ...etc.

4 Recycling

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

When you see the crossed-out wheel bin symbol attached to a product, it means the product is covered by the European Directive 2002/96/EC:

Never dispose of your product with other household waste. Please inform yourself about the local rules on the separate collection of electrical and electronic products. The correct disposal of your old product helps prevent potentially negative consequences on the environment and human health.

FCC - Notice of compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC - Remarques sur la conformité

L'appareil répond aux normes FCC, Part 15.

Fonctionnement soumis aux deux conditions suivantes:

1. Cet appareil ne doit pas provoquer d'interférences nuisibles, et
2. Cet appareil doit accepter toute interférence reçue, y compris les interférences susceptibles de provoquer un fonctionnement peu satisfaisant.

Remarque:

Cet équipement a été testé et a été certifié conforme aux limites imposées pour un appareil numérique de Classe B, conformément à la partie 15 des règlements FCC. Ces limites sont définies aux fins d'assurer une protection raisonnable contre les interférences nuisibles dans une installation résidentielle. Cet équipement génère, utilise et émet des fréquences radio qui, en cas d'une mauvaise installation ou d'une utilisation non-conforme aux instructions de ce manuel d'utilisation peuvent causer des interférences nuisibles aux communications radio. Il n'y a toutefois aucune garantie que des interférences nuisibles ne se produiront pas dans une installation donnée. Si cet équipement cause des interférences nuisibles avec votre poste radio ou de télévision, ce que vous pouvez déterminer en éteignant et en rallumant votre équipement, il est conseillé à l'utilisateur d'essayer de pallier à ces interférences nuisibles en prenant l'une ou l'autre des mesures suivantes:

- Changez la position de l'antenne de réception.
- Augmentez la séparation entre l'équipement et le récepteur.
- Branchez l'équipement sur une source d'alimentation différente de celle sur laquelle le récepteur est branché.
- Consultez votre distributeur ou un technicien qualifié en la matière pour assistance.
