IPL hair removal device: go 12 months hair-free

BRI923/00

## Highlights

### 3 dedicated attachments

Different heads for body, face and bikini work with speed and precision for gentle use, even on sensitive areas. The face attachment has an integrated light filter for precise treatment.

### Philips Lumea IPL app

Our free coaching app helps you plan and stick to your treatment schedule, then takes you through each session step by step. Downloaded by more than 2.1 million users.

### Developed with dermatologists

As a leader in health technology, Philips developed Lumea IPL in consultation with dermatologists, for easy and effective use in the

safety of your home. Derived from technology used in professional salons, Lumea IPL offers gentle treatment, even on sensitive areas.

### 2 x a month for fast results

Get started with the initial phase of 4 treatments only every 2 weeks — that's half as many treatments as other brands. Then touch up monthly to maintain the results.

### Skin Tone Sensor

Choose from 5 intensity settings for a comfortable experience. The Skin Tone Sensor prevents you from treating areas of your skin that are too dark for IPL treatment.

### Extra-long cable

Lumea 7000 Series is convenient to use thanks to an extra-long cable for easy access and enhanced manoeuvrability.

### For many skin and hair types

IPL needs contrast between the pigment in the hair colour and the pigment in the skin tone; it therefore works on naturally dark blonde, brown and black hair and on skin tones from fair to medium brown (I-IV).

### Satin Compact pen trimmer

Complete your beauty routine: The Satin Compact pen trimmer is a discrete on-the-go beauty tool to quickly and easily remove even the finest facial hairs.
