Product Brief

INTEL® NUC KIT
NUC8i7BEH

- Intel® Optane™ Memory Ready™
- Iris® Plus Graphics 655
- Thunderbolt™ 3

The Shape that Fits the Future.
Get ready for spectacularly responsive performance from the Intel® NUC with 8th generation Intel® Core™ i7 processor. The latest generation Intel NUC kit lets you or your customers build the exact system they want. From choosing memory options to storage configurations, the benefit of building up an Intel NUC kit is the ability to completely customize the kit for a specific usage. Whether editing 4K video, casual gaming, or serious multitasking, the Intel® NUC8i7BEH Mini PC kit delivers the features people want—in a size that fits easily into any lifestyle and any room in the house.

The first Intel NUC kit with a quad-core 8th generation Intel® Core™ i7 processor

The Intel NUC8i7BEH Mini PC kit with a true quad-core 8th generation Intel Core i7 processor delivers a big jump in performance compared to the previous generation Intel® NUC7i7BNH. Whether it’s built to create video content or megatask, the Intel NUC8i7BEH Mini PC kit gives great visual immersion with Iris® Plus Graphics 655 and the unprecedented performance of Intel Core processors.

The kit also room for a 2.5” HDD and is Intel® Optane™ memory ready. By coupling a 2.5” HDD and Intel Optane memory, performance improves dramatically with up to 1.4x faster media loading, opening large media files 3x faster, and completing daily tasks up to 2x faster.

With Thunderbolt™ 3 plus USB 3.1 for fast data transfer

The Intel NUC8i7BEH Mini PC kit has a chassis that is a connectivity powerhouse. It comes with Thunderbolt™ 3 which supports up to 40 GBps of data transfer and four USB 3.1 ports to bolster productivity to move big media files around, as well as room enough for peripherals and then some. There’s also room in for an M.2 SSD, and the kit comes with two additional USB ports via 1x4 internal headers, an HDMI® 2.0a port for 4K displays, and DisplayPort* 1.2 via USB-C. With the ability to have triple displays in 4K, photos, videos, and streaming media are all picture perfect.

Think you know what small can do? Think again.

In a footprint that’s almost zero—especially when compared with a tower—this Intel NUC Mini PC kit can be custom built to have the performance and features of a desktop PC in a device that fits in the palm of your hand. The small size means the Intel NUC can be positioned anywhere—from behind a display to tucked discretely in an entertainment center. And with improved cooling, fan noise is minimal—so it doesn’t sound like there’s a PC in the living room if the Intel NUC Mini PC is used for gaming.

The Intel® NUC: who says small isn't powerful?
POWER, CAPABILITIES, AND PERFORMANCE IN A NEAR-ZERO FOOTPRINT

Highlighted Features

1. 8th generation Intel® Core™ i7-8559U processor
2. Iris® Plus Graphics 655
3. Two DDR4 SO-DIMM sockets (up to 32 GB, 2400 MHz)
4. 1x SATA3 port for connection to 2.5" HDD or SSD
5. M.2 slot with flexible support for a 42 or 80 mm M.2 SSD
6. Intel® Optane™ memory ready (up to 32 GB)
7. Intel® Dual Band Wireless-AC 9560 and Bluetooth® 5.0
8. Back panel DC power connector (12–19V)
9. HDMI® 2.0a display port supporting 8 channel audio (7.1 surround sound)
10. Intel® Gigabit LAN
11. Two USB 3.1 ports on the back panel
12. Thunderbolt™ 3 USB Type-C port providing DisplayPort® 1.2 or USB 3.1 gen 2
13. Kensington lock support
14. Support for user-replaceable third-party lids
15. Micro SD card slot
16. Consumer infrared sensor
17. Two USB 3.1 ports (including one charging port) on the front panel
18. Front panel headphone/microphone jack
19. Front panel power button
20. Dual-array front microphones
Technical Specifications

Processor
- Intel® Core™ i7-8559U processor (2.7 GHz – 4.5 GHz, Quad Core, 8MB Cache, 28W TDP)

Graphics
- Iris® Plus Graphics 655
- HDMI® 2.0a port with 4K at 60 Hz
- USB Type-C port with DisplayPort® 1.2

System Memory
- Two DDR4 SO-DIMM sockets (up to 32 GB, 2400 MHz), 1.2V
- One M.2 connector supporting 22x42 or 22x80 M.2 SSD
- One SATA3 port for connection to 2.5" HDD or SSD (up to 9.5 mm thickness)

Peripheral Connectivity
- Intel® Gigabit LAN
- Thunderbolt™ 3 with data transfer up to 40 Gbps
- Four USB 3.1 ports (two back panel ports and two front panel ports including one charging port)
- Two additional USB 2.0 ports via internal header
- Intel® Dual Band Wireless-AC 9560 (802.11ac), 2x2, up to 1.73 Gbps
- Dual Mode Bluetooth® 5.0

System Bios
- 64 Mb Flash EEPROM with Intel® Platform Innovation Framework for EFI Plug and Play
- Advanced configuration and power interface
- V3.0b, SMBIOS2.5

Hardware Management Features
- Processor fan speed control
- Voltage and temperature sensing
- Fan sensor inputs used to monitor fan activity
- ACPI-compliant power management control

Expansion Capabilities
- Two Internal USB 2.0 ports via two 1x4 headers (for replaceable lid support)
- One Consumer Electronics Control header
- Two dual-array microphones on the front panel
- Headphone/microphone jack on the front panel
- Up to 7.1 surround audio via HDMI
- Two Internal USB 2.0 ports via two 1x4 headers

Audio
- Dual array microphones on the front panel
- Headphone/microphone jack on the front panel
- 32 GB Intel® Optane™ memory
- Intel® Visual BIOS
- Intel® Express BIOS update support

Front Panel Header
- Reset, HDD LED, Power LEDs, power on/off

Technical Specifications

System BIOS
