ATTACK X3 RGB

THE FIRST AND BEST MECHANICAL SWITCHES

Attack X3 RGB brings you the most popular switches for gaming: Cherry MX switches. With a guaranteed lifetime of at least 50 million clicks and unparalleled reliability, the swift response of those switches will allow you to show just how good you are.

N-KEY ROLLOVER : UNLIMITED ACCURACY

Games quite often require complex key combinations. Most keyboards on the market have limitations regarding the number of simultaneous keys you can press, with the vast majority being limited to 6 simultaneous keys or less. Attack X3 RGB frees you from any restriction, allowing you to press any number of keys and obtain always accurate results!

FN + **6K** = 6-KEY ROLLOVER

FN + **NK** = N-KEY ROLLOVER

ON-BOARD MEMORY

Up to 9 backlight effects on-board

On-board recording of up to 30 macros

ATTACK X3 RGB

COUGAR UIX™ SYSTEM

The COUGAR UIX™ SYSTEM is the ultimate gaming device configuration tool. This user-friendly software allows you, through an intuitive interface, to fully configure all compatible COUGAR peripherals with a single application, integrating all of them and unleashing their full power. It will also allow you to synchronize the configuration profiles of mouse and keyboard so that when one changes its profile, the other changes to the corresponding profile without need for further configuration, helping you save time. Another important feature is the ability to record and store macros for both mouse and keyboard in a "Macro Arsenal" that will allow you to use them in any compatible COUGAR keyboard or mouse without recording it again. Convenience and compatibility on a fully featured device management application.
