HP Device as a Service (DaaS)

Smart, simplified computing solutions for today's world.

Optimize your IT assets and resources with HP Device as a Service (DaaS), a complete solution that combines hardware, insightful analytics, proactive management, and services for every stage of the device lifecycle.[1]

The right devices for the job

Choose a device mix that's as unique as your business, with a wide selection of HP commercial notebooks, desktops, and mobile and specialized devices.

Management with insight

ISO 27001:2013 certified

Certified by KPMG — ISO/IEC 27001 Information Security Management

Secure and manage multi-OS devices, and proactively identify and mitigate issues with insightful HP TechPulse analytics.[2] Our Service Experts can enforce security policies and perform daily management with leading endpoint management tools.[3]

Flexibility for your business

Don't pay for more than you use. Tailor your solution with device lifecycle services—from design to configuration, maintenance, and end of use—and financial terms to meet your needs with the convenience of a single price per device.

HP Lifecycle Services

6 RECOVER AND RENEW
HP will securely recover and repurpose or recycle your end of use devices.

5 MAINTAIN
Get support, repair, and replacement services in the workplace and on the road.

4 OPTIMIZE
Your trusted, global partner to improve user productivity and IT manageability.

1 DISCOVER AND DESIGN
Take advantage of professional services to get the most from your IT investments.

2 CONFIGURE
Get your PCs expertly configured and ready to use out of the box.

3 DEPLOY
Let HP make the delivery, staging, installation, and setup of your devices easy.

Tailor a plan to your needs

Actionable analytics and reports

Manage and plan proactively with HP TechPulse—predictive analytics that use machine learning, preconfigured logic, and contextual data to deliver device, application, and usage insights that help you optimize your IT spending and resources.

Optimize IT spending

Reduce purchasing complexity with simple, curated plans that maximize spend, cash flows, and refresh cycles. Tailor for your needs with device lifecycle services for one predicable price per device.

Built for every budget

Take advantage of HP Financial Services,[7] a flexible payment solution that helps you maximize your business productivity. Flex your plan based on changing workforce and IT needs, and refresh your devices mid-term. Or bring your own financing.

HP Device as a Service (DaaS)

IT simplified. Resources maximized.
